ONE YUMA LIBEL COMPLAINT FAILS

First of Three Charges is Dismissed by Court

Trial on Second Count to be Started Today

Nearly Score of Witnesses Heard During Day

(BY A. P. NIGHT WIRE)

YUMA (Ariz.) June 3.—One of the three charges of criminal libel filed against George W. Lynn, publisher of the Yuma Herald, was dismissed late today after a preliminary hearing before Justice of the Peace J. H. Smith. On two other charges of libel Lynn has been held to answer in the Superior Court, and the trial of one of these cases will start here tomorrow. E. P. Sanguinetti, Yuma merchant, is the complaining witness in each case.

Justice Smith ruled that no malice had been shown by the State and that Lynn would be found not guilty. The charges were based on an announcement published in the Herald last month stating that an affidavit telling of a business deal between E. P. Sanguinetti and Cyrus P. Holt in 1923 would be printed in the paper soon.

Defense counsel contended that, taken in connection with the affidavit, the announcement was not libelous, and this contention was upheld by the court. Counsel also contended that Lynn was exercising the rights of a free press, as guaranteed by the bill of rights, in publishing both announcement and affidavit. It was the State's contention, however, that Lynn had gone beyond his rights in printing matter that reflected on the character of the complaining witness.

Trial of the case took all day and nearly a score of witnesses testified. Sanguinetti was called to the stand by the defense and examined in detail concerning the business deal with Holt. He said he had purchased forty acres of land from Holt for \$150 in 1923, and that it was a fair price for the land at that time. Holt contradicted this in his testimony, declaring that he only borrowed \$150 from Sanguinetti and thought at the time he was signing a mortgage on the land, but learned afterward it was a deed to which he had affixed his signature.

Several early settlers of Arizona were called by the State in an effort to show that \$150 was a fair price in 1923 for the land under discussion.

The charge dismissed today was the third filed against Lynn by Sanguinetti. The one on which he will be brought to trial in Superior Court tomorrow was the second, involving alleged libelous statements contained in Herald editorials.

Sanguinetti is probably the largest property owner in Yuma county and controls numerous enterprises. One of the alleged libelous editorials of Sanguinetti of selling milk treated with dangerous quantities of formaldehyde, and another accused him of conspiring to evade payment of taxes.

Pistol Given Tot for Plaything; Mother is Slain

(BY A. P. NIGHT WIRE)

CHICAGO, June 3.—An automobile pistol, given to a 16-month-old girl as a plaything, caused her mother's death today, according to a story told the police by James Cody, a boarder at the home of the victim, Mrs. Celia Rose.

Cody, the only witness, said he and Mrs. Rose had breakfast before other members of the family were awake. The baby, in an adjoining room, awoke and began to cry. The mother went to her and the child was quiet.

"I asked her what ailed the baby," said Cody, "and she told me it wanted a gun, which was on the bureau, to play with. She said she gave it to her. She pulled the baby's bed into the kitchen and continued breakfast. A moment later there was a shot and Mrs. Rose fell over dead. The baby must have discharged the pistol accidentally."

START GRAIN HARVEST

(EXCLUSIVE DISPATCH)

DUCOR, June 3.—Harvesting of grain has started in Tulare county. For the most part farmers anticipate a satisfactory yield, estimates made earlier in the year by farm experts being born out by the crops.

The crops were retarded for a time by late arrival of the rains and an early harvest was feared. This was remedied by heavy late rains and present prospects promise a fair profit.

RED OIL ENVOYS INVADE MEXICO

Experts to Study American Methods in Fields

Delegation Will Come Here to See Operations

Pittsburg Machine Men Said to Have Caused Trip

(BY CABLE-EXCLUSIVE DISPATCH)

MEXICO CITY, June 3.—Through there exist no relations between the United States and Russia, the first real commercial benefit Russia is deriving by resumption of relations with Mexico and establishment of a soviet legation here is admitted at the legation by the arrival here of six prominent soviet oil experts who will study American drilling and operating methods in Mexican oil fields with a view of strengthening trade relations with American oil machinery manufacturers. The soviet oil specialists are employees of a Russian oil syndicate which, in turn, is owned by the soviet government and are six out of a group of twenty investors. Appointed by Moscow to study American methods of oil production in Mexico, Oklahoma and California.

DIRECT CONTACT AIM

The soviet legation states this group is the first of Russian trade envoys who will investigate production of many much-needed raw materials which Mexico produces, and which so far are chiefly American controlled, for the purpose of establishing direct contact with producers here and avoid buying through Liverpool and Hamburg middlemen who, so far have been supplying Russia with such products as oil machinery, chicory, hemp, cotton, castor beans and other Mexican products.

The legation states that the Russian oil industry has reached its prewar level and that Russia now seeks to place its oil industry on a par with the most advanced production methods employed in the United States, and by American oil interests in Mexican fields. The delegation will study oil industry in Tampico fields in all its aspects, especially as regards drilling and refining methods.

BEHIND INVITATION

Pittsburgh oil machinery supply interests are credited with being chiefly responsible for the soviet experts' journey to Mexico, and these same interests will serve as guides for the inspection tour the Russians will make through Tampico fields. There is greater similarity between Mexican and South Russian fields than between American and Russian fields.

The soviet legation states there is no political significance to the arrival of the experts, even though they be government employees, claiming their trip is solely for the purpose of establishing closer relations between American oil-machinery producers and Bolshevik consumers and incidentally to gain first-hand knowledge of the American-controlled oil industry here.

FISH SCALES VALUABLE

(EXCLUSIVE DISPATCH)

EASTPORT (Me.) June 3.—Twenty thousand pounds of herring scales, worth 15 cents a pound, are being shipped to Germany from this port. These are made of the scales of the herring which is used for coating pearls and manufacturing various kinds of jewelry.

CLASH IN STORIES

"Mr. Owen," the Chief said, "told us that he woke up finding his wife struggling with two masked burglars. On the other hand, Mrs. P. J. Boyle, who lives next door to the Owens, says that Owen woke her last night and asked her to call the police, saying there were burglars in the house. A few minutes later he returned, Mrs. Boyle says, with the news that his wife had been shot."

The Chief says the seeming discrepancies might mean nothing more than excitement in the witness' mind. He said he would ask Owen about Mrs. Boyle's statement later. Owen was under a doctor's care today.

MEXICAN FILM BAN QUIZ BEGUN

Universal Seeking Cause of Official Rebuff

Unknown Who Denounced Picture Sought

Though Taboo Soon Lifted, Company Persists

(EXCLUSIVE DISPATCH)

NEW YORK, June 3.—Detectives are now investigating, according to information made known here today at the offices of the Universal Pictures, Inc., the situation which caused the Mexican government on May 6, last, to place a ban on the showing of all Universal pictures over all Mexico. The ban was lifted the very next day, it was said, but Universal officials are desirous of tracing to the bottom the conditions which caused this action to be taken.

The picture which was at first thought offensive and an unfair representation of Mexican character was "Fighting Fury," in which Jack Hoxie was featured. In this film, Hoxie plays the part of a Mexican, who is victimized by a lawless band of Mexican renegades. The motivating interest of the picture lies in the hero's successfully wreaking revenge on his enemies.

Soon after "Fighting Fury" made its first appearance in Mexico, some persons, whose opinion apparently was of great weight with the government, and whose identity the Universal company is trying to discover, reported that the general theme of the production was derogatory to the Mexicans as a people. Brightway, an editor of all Universal pictures in any theater in Mexico. That was on May 6.

Immediately upon the issuance of this ban, Jack H. Hayes, manager of Universal Pictures in Mexico, telegraphed to the Minister of the Interior about the strenuous restriction. It was then decided to hold a private showing of the picture in the Minister's office. Two of the Minister's assistants and several other Mexicans were present. Nothing of reprehensible nature was found in the film. It was, however, the Minister ordered all Sheriffs to disregard the ban of the day before and allow exhibition of Universal pictures as before.

DYNAMITER McNAMARA TO BE TRIED

Judge Overrules Motion to Quash Indictment of Union Official

(EXCLUSIVE DISPATCH)

INDIANAPOLIS, June 3.—John F. McNamara, business agent of the United Brotherhood of Carpenters and Joiners of America, Local No. 22, and confessed Los Angeles dynamiter, will face trial on a blackmail charge on the 29th inst. The date for the hearing was set today by Special Judge Fred C. Gause 4th Criminal Court.

Judge Gause overruled a motion filed by McNamara to quash the indictment returned against him by Charles E. Cox, attorney for McNamara, alleged in the motion to quash, that the indictment was not clear enough satisfactorily to inform the defendant what charges he must meet.

Judge Gause ruled that the indictment, which is in four counts, was sufficiently clear and that there are no faults in its allegations.

McNamara was arrested following investigation by the Marion county grand jury of vandalism in the new Elks Club, North Meridian street, and his arrest followed construction. Valuable metal doors and windows were damaged. The indictments under which McNamara is held allege that the trouble grew out of his efforts to obtain employment for members of his local union.

McNamara denied knowledge of the vandalism, but failed to sign along with other business agents, manufacturers and contractors persons involved and offering assistance to police and others investigating.

MYSTERY IN WIFE'S KILLING

Burglars Blamed by Chicago Husband for Shooting in Night; Police Chief Finds Discrepancies

(EXCLUSIVE DISPATCH)

CHICAGO, June 3.—Mrs. Belle Gunn Owen, wife of George Owen, a real estate man, was shot to death in her home at 1123 Ontario street, Oak Park, early this morning. Her husband, awakened by scuffling, found her struggling with two masked men, he told the police. As he opened the door one of them shot Mrs. Owen in the throat, he said, and the two ran away.

Late this afternoon the Coroner's jury found in accordance with these facts.

While the thirty Oak Park vigilantes and rifle squads from Chicago hunted vainly for trace of the two burglars, Chief of Police McGrath of Oak Park ran into discrepancies that caused him to ask State's Attorney Crowe to send a representative to the inquiry. He pointed out the discrepancies without any attempt to weigh their importance.

NO TRACE OF PAIR

Owen said one of the burglars shot his wife as he ran to help her from the room. The killer dived out a window, he says, and the other man bowed him over and went head first through a second floor window.

Owen's two sons reached the room a moment later, to find their father weeping over the body of his wife.

The Oak Park police called out thirty members of a volunteer vigilante organization and, with the help of Chicago's own squads, began the most thorough man hunt in the history of the village. Daybreak found them bewildered, however. The burglars had escaped unseen.

RAILWAY PLAN BOOSTS SHARES

Chicago, Milwaukee and St. Paul Issues Soar

Announcement Sends Stock and Senior Bonds Up

Junior Securities Hold Fairly Steady Tone

(BY A. P. NIGHT WIRE)

NEW YORK, June 3.—Plans for overhauling the financial structure of the Milwaukee and St. Paul Railway, which were announced by the reorganization managers last night, found a favorable reception in Wall street today. General approval of the terms was attested to by a rise in the company's stock and senior bonds and fairly steady tone maintained by the junior securities.

In response to the plan for exchanging new mortgage bonds for the road's preferred and common shares, which are assessed \$28 and \$32, respectively, the preferred stock sold at the highest level since the reorganization, and the common scored a moderate gain. The mortgage bonds which the stockholders will receive will cover the road's obligations which the present junior bonds will be exchanged.

The proposal to leave the existing general mortgage bonds and the railroad's preferred stock of the Chicago, Terre Haute, and St. Louis Railway undisturbed contributed to break rallies in these lines, ranging from 1 to 4 points.

The responses from small stockholders, bankers said, indicated satisfaction with the plan and gave them no reason to believe that there would be organized opposition to the proposal, despite reports from Washington that officials of the Railroad Owners' Association were opposed to the terms.

LAFAYETTE HELD BOND OF COMITY

Friendship Between Two Nations Felicitated on Centenary of Visit

(BY A. P. NIGHT WIRE)

LEXINGTON (Ky.) June 3.—America's action in going to the aid of France during the World War without asking beforehand for any special privileges and repayments, is the counterpart of France's support of the American Revolution in 1778, Emile Daeschner, French Ambassador to the United States, said here tonight at the celebration of the centenary of Lafayette's last visit to America.

This similarity of action, he declared, was "a new proof of the common way of feeling the French and American people have about the way to behave in life and should maintain and foster more and more the feelings of friendship between the two countries." He said they have so frequently shown for each other, especially since the war, that the symbol of devotion to an ideal, the ideal of liberty, which is perhaps the highest of all.

The Ambassador asserted that France "was seldom moved by the desire of getting material benefit" in exchange for the help she extended to struggling nations.

A PROTEST AGAINST REPAIRS

ROLLS-ROYCE

"How old is your Rolls-Royce?" inquired a man who had bought four ordinary "good" cars within the last ten years.

"Perhaps you would be astonished to know," was the reply, "that this car has been in my service since April, 1914."

The birthday of a Rolls-Royce is never important. For this wonderful car is built as a Protest Against Repairs. Six years—the average life of the "good" automobile today—is nothing to this marvelously durable motor-car. After 300,000 miles of superlative road service, a Rolls-Royce is ready to purr through another 300,000 miles or more. Ready for at least ten more years of unparalleled performance. And at an astonishingly low cost of maintenance, for gasoline and oil.

Small wonder that Rolls-Royce can give an absolute three-year guarantee against failure of any mechanical part; that Maintenance Depots report only very minor repair jobs few and far between!

Let us take you on a 100-mile trial trip. Let us demonstrate to you the surpassing comfort of the most economical good car in the world.

'SCOOPED' NEWS OF ARCTIC FEAT

Editor Recognizes Import of Traveler's Story

Amundsen Refused Credit by Signal Officers

Northwest Passage Finding Tale Recalled

PHOENIX, June 3.—The manner in which north of Arctic Amundsen's voyage through the Northwest Passage was flashed to the world in December, 1905, is a vivid memory with Col. William A. Glasford, U. S. A. retired, now a resident of Phoenix. In 1905 he was stationed in Seattle, in charge of signal service activities in the northwestern military division and Alaska, with inclusion of a cable from Valdez and of telegraph lines that reached through the snowy wastes of Alaska.

One day, in the ordinary course of duty, the manager of the Seattle signal service office reported to his superior that the Fort Egbert (Eagle City) office on the Yukon, just west of the Canadian line, had a "collect" message of about 1800 words, offered by a wild-looking Swede, who said his name was Amundsen and that he had just "mashed" in 400 miles by dog team from Herschel Island in the Arctic Coast, where he had left his ship, the *Goa*.

RETURN TO NORTH
The telegram was addressed to one Fridtjof Nansen at Stockholm, Sweden. Amundsen, not waiting to see what was done with his message, obtained supplies and took his dogs back on the trail to the north. Naturally, the question of payment was referred to Col. Glasford. He, in turn, passed it on to the chief signal officer at Washington, who was Gen. A. W. Greely, of farthest north fame, just himself the builder of the Alaskan telegraph lines.

That evening, at dinner in the club, the signal officer casually mentioned the inquiry. Only one person gave it importance. He was Ernest Brainard, editor of the "Post-Intelligencer," who soon left the table. The next morning, on the mere suggestion received, his paper's front page was covered with a story of the discovery of the Northwest Passage after many centuries of effort. The news was shared with the Associated Press and appeared in early editions of newspapers on the Atlantic Coast and in Europe including Sweden.

The published story that Brainard paid the cost of transmission of the message to Nansen is declared an error. The only basis for his story, the "scoop" of a decade, lay in the words "Amundsen," "Goa" and "Herschel Island."

MESSAGE DECLINED
Next day Gen. Greely, keen in his appreciation of the results of Arctic adventure, wired authorization for the sending of the "collect" message. But payment was refused when delivery was attempted to Nansen in Stockholm. The news already had been made known to the world and the irritated addressee had lost both publicity and large expected financial return.

The following season of excitement within the United States Signal Service over who was to pay the bill, a matter of \$800. The secretary of War finally put the burden on Gen. Greely, who paid, but who obtained reimbursement from Congress.

The *Goa* now rests in Golden Gate Park, San Francisco, while the fate of her intrepid commander, apparently, is lost in the north polar region, still in doubt.

Dunning Regime Given Majority in Saskatchewan

WINNIPEG, June 3.—The Dunning government was re-elected in Saskatchewan today. Out of eight Cabinet Ministers running, only Attorney-General J. A. Crow of Regina was defeated. The Dunning government will control forty-five out of sixty seats, with the Farmers having fifteen, the Conservatives five and the Independents two. The Dunning administration recently introduced government control of liquor to the people.

ELKS OPEN THEATRE

HANFORD, June 2.—The Elks annual benefit for its charity fund, drew a large attendance at the Municipal Auditorium last night. The minstrel first part opened the show with Harry Kimball as interlocutor, which was followed by an olio, consisting of a variety of songs and vaudeville sketches, all by local acts.

A feature of the show was that it was the first to be presented on the big stage of the new auditorium with its excellent scenic and lighting effect. The show will be repeated again tonight.

EDITORS TO MEET HERE NEXT YEAR

Rathbun of Auto Club and Boylan of Wampas Swing 1926 Convention

RICHMOND (Va.) June 3.—Stampeding the National Editorial Association with spectacular stunts, Morris Rathbun of the Automobile Club of Southern California and Malcolm Stuart Boylan of the Wampas today swung the 1926 convention of the editors for Los Angeles.

An overwhelming majority of delegates voted a preference for the Golden State and the executive committee will be empowered to complete arrangements. Rathbun and Boylan issued a sensational special newspaper, introducing it as an extra during a session of the organization. Justus Craemer of Orange and Timotheus of Phoenix, who joined Ben H. Read of the Southern California Editorial Association in distributing California orange and general propaganda for the State.

Arizona Guard Will Muster in Apache Troops

PHOENIX, June 3.—At Fort Apache this week Company K, One Hundred and Fifty-eighth Regiment of Infantry, National Guard of Arizona, will be mustered in. Maj. Joseph H. Pomeroy of Mesa will serve as mustering officer.

The company is to be notable for the fact that its entire enlisted personnel will be composed of White Mountain Apache Indians, many of them sons and grandsons of warriors who fought in early days against the white man, though others are descended from scouts who served with Crook and other generals in bringing peace to the hills of Arizona.

Company F, One Hundred and Fifty-eighth, is stationed at Phoenix, is wholly composed of Indians, mainly employees or senior students of the Phoenix Indian Industrial School. Company D, at Casa Grande, is composed largely of Pima and Papago Indians, most of them employees of the government agency at Sacaton.

CIGARETTE BLAMED IN BROKER'S DEATH

STORIES ON PATROLMAN'S ARRIVAL AT ROOMS DIFFER

CHICAGO, June 3.—George Randolph Parsons, wealthy broker and man about town, who was burned to death in a mysterious fire in his apartment Sunday morning, probably caused his own death by carelessness with a lighted cigarette. This is the view of the police, who are no nearer a definite solution now than they were when his body was discovered.

The janitor of the apartment testified that Parsons was careless with lighted cigarettes. The police now believe that Parsons, weary with a night of auto riding and dancing, fell asleep with a lighted cigarette in his hand.

James King, the park policeman he had picked up on his rounds, and whom he took to his home for breakfast, also was asleep and barely had time to leap from a window, a Lincoln Park police button, found in the burned apartment, remained unexplained. King insists it is not his, although one button is missing from his uniform. He sticks to his statement that he and Parsons arrived at the apartment at 7:30 Sunday morning, but the Japanese butler says he prepared breakfast for them at 8 or 8:30.

Mrs. Parsons yesterday took the body of her husband to Battle Creek, Mich., for burial.

CHANCE CAUSES TRIO TO MEET AFTER YEARS

WOMAN FINDS MOTHER AND BROTHER, WHO BELIEVE HER TO BE DEAD

JOLIET (Ill.) June 3.—Mrs. Emma Douglas of Kansas City, Mo., was brought face to face with her mother and brother here yesterday, when the latter two believed Mrs. Douglas dead. In 1897 Mrs. Susie Warner and her husband were divorced here. The children were sent to a home from which Emma was given over to foster parents in 1900. Hazel, a sister, now dead, and Emma, were sent to Kane county. Then all trace of them was lost.

Mrs. Douglas returned to Joliet this week with a traveling show. She obtained the papers of her adoption. Checking these in the County Clerk's office, the name as given in the divorce case was learned. Through him it was learned that Guy A. Warner of this city is a brother of Mrs. Douglas.

She went to the Warner home, where there was a family reunion after a separation of a quarter of a century.

OLD-TIME MEETING

Large Camp Houses Members of Adventists Church

HANFORD, June 3.—The old-time camp meetings are supposed to be a thing of the past, but there are exceptions. At the county fair grounds near this city Seventh Day Adventists housed in 300 tents surrounding a large pavilion presenting a familiar scene. The tents and their equipment are modern, even if the camp meeting idea is not, for they are partitioned off into bedrooms and living rooms and furnished with rugs, chairs and tables.

Forty churches in Merced, Mariposa, Fresno, Kings, Tulare and the northern portion of Kern counties are represented. Services are held, forenoon, afternoon, and evening. Adult and kindergarten classes meet sessions at the Helena Sanatorium has a medical tent on the grounds the Lodi Academy of the church is represented and the camp grounds are provided with a grocery store, postoffice and information bureau.

SIX IN POISON RUM NET

Police Assert Suspects Are Purveyors of Liquor to Veterans at Sawtelle Home

Federal prohibition agents late Tuesday night arrested five men and one woman asserted to be the nucleus of a poison rum ring that has been supplying bedridden World War veterans at the Soldiers' Home in Sawtelle with moonshine during the last two months.

The prisoners are: Grace Collins, John H. Harrison, Herman J. Lawery, R. C. Delay, Martin Culver and Joseph Canell.

All were arraigned yesterday before United States Commissioner Turner and their bonds fixed at \$2500 each. The six were sent to 1202 Mayfield avenue, Sawtelle, for inability to furnish bail.

PATIENTS SUFFER
Two dry operatives from the Los Angeles office were placed in the home hospital several weeks ago, following complaints to W. W. Anderson, district prohibition director, that a number of the patients had suffered severe relapses after drinking liquor. They are asserted to have supplied the evidence which caused the arrest of the six persons. John Harrison, Grace Collins and Martin Culver were taken into custody at 1202 Mayfield avenue, Sawtelle, and Lawery and Delay were arrested at 10852 Montana avenue, Sawtelle.

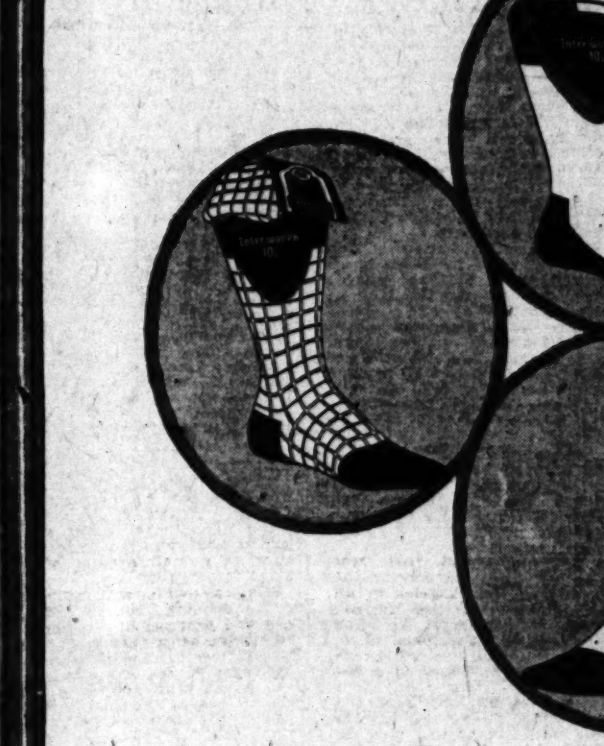

Arresting officers found the doors barricaded when they arrived and upon battering down the bars discovered large piles of bottles in the work.

CITY SETTLES FOR PAVING CONTRACT

HANFORD, June 3.—Threatened litigation between this city and the California Construction Company has been finally eliminated and the company paid for completion of its \$51,000 contract for resurfacing ten blocks of the streets of the business district of this city.

The company did the resurfacing eight months ago, but the city trustees, following requests by citizens committees, refused to accept the work. The company recently began extensive repairs and the trustees have finally accepted the work. City officials are now inviting bids for a block of street paving between the county Courthouse and the new auditorium, the county to pay for the major portion of the cost.

Would You Like to Get Into Automobile Business?

A salesman's position is open to you by giving us a few hours each night for two weeks. Even though you are working on a salary and have a fair education, you can better your position if you are a hard worker.

Are You the Man?

The Willys-Overland Pacific Company Sales Instruction School offers to a limited number of men an opportunity to secure a thorough knowledge of automobile selling—FREE.

Classes are held evenings so as not to interfere with your regular employment. Successful candidates will be placed in our organization on a salary, furnished with automobile transportation.

It's Up to You

School begins..... June 8, 1925
For further information see R. J. Flynn, Sales Manager, 1088 So. Hope St., Los Angeles.

TIMES COLLECTION BOX

are located in lobbies of 44 principal downtown offices. Want ad copy may be deposited in them up to 8:30 p. m., for insertion the following morning in the world's largest newspaper.

BY MORROW K

WORCESTER (Mass.) June 3

Leo Diegel of Glen Oaks, N. Y., romped past all field today in the first two flights of the Worcester County tournament at the Worcester Country Club.

Diegel and MacFarlane each had for the thirty-six holes. Both the 16,000 spectators, all of favorites and the experts of the surprise of their lives.

gathering his 141, MacFarlane broke the Worcester course record. The first nine of his second round was the best golf ever seen in this New England city. Par for the out nine and MacFarlane had but 31.

His first eighteen holes ended in 74 and the second to 73. The old competitive record of 141 was held by Willie the local professional. Diegel's eighteen tied that record. The young man had 73-81-141.

JONES SLIPS
Meanwhile, the players who had picked to win were falling friends. Bobby Jones, amateur champion, 74-77 strokes to get around the eighteen. Par for the course.

Jones' second round was 74. He got a 70 and appeared back on his game. His total 144. Walter Hagen took 73 on the first trip and 75 on second, making a total of 148 strokes over par.

William E. Mehlhorn, the Westchester professional, who had expected to be near the top, had day. His first eighteen found him holding the bad of 78, and though he did better the last tour, he was one worse than par, or 73. His

GREB ARRESTED IN WILD CHASE
(BY A. P. MONT WIRE)
PITTSBURGH (Pa.) June 3.—Harry Greb, middle-weight boxing champion, was arrested today on a disorderly conduct charge, after an automobile chase over several blocks on a North Side street. As a policeman approached, an automobile on a street corner to investigate a woman's scream, he said, Greb stepped into a taxicab and drove away, halting after the officer fired several shots. Five other occupants of the automobile, including two women, were also arrested. All posted a \$500 forfeit. They failed to appear for a hearing.

FORT WORTH

FORT WORTH (Tex.) June 3.—Investigation of Fort Worth power and light company rates was begun here today by the City Council. The new administration believes rates are excessive in comparison with rates of other Texas cities.

Construction of a new auto show building twice the size of the present building today was authorized by the Southwestern Exposition and Fair Stock Show. The exposition was made an eight-day show instead of seven days. It will open with elaborate pageants Friday night, March 6, and will be followed by a style show, with the first rodeo on Sunday.

Maj. H. C. Burwell of Kelly Field today announced that Fort Worth will be placed back on the government aerial route, providing a landing field is ready within ten days. The Chamber of Commerce has ordered air-field improvements to be made immediately.

PITTSBURGH

PITTSBURGH, June 3.—Harry Greb, champion middleweight boxer, used cave-man tactics on his sweetheart, Naomi Braden, 23 years of age, 443 Cedar avenue, North Side, early this morning, and the young woman was badly beaten. Police attracted by the screams of Miss Braden, who was in an automobile with Greb and four others, chased Greb, who had leaped from the car into a taxicab, for four miles, firing several shots at the fleeing taxi. Greb was overtaken and arrested. He failed to appear at a hearing today, forfeiting a deposit of \$30.

Coroner McGregor has ordered an inquiry into the explosion of a truckload of fireworks in McKees Rocks yesterday, when two were killed and a score injured. The coroner learned that twenty-seven carloads of explosives were stored in the building from which the fireworks had been taken.

Two deaths and one prostration have resulted here in the past twelve hours from the heat spell. Forecaster Brotzman stated there was no indication of breaking up of the torrid wave.

The trial of ten men, charged with plotting the hold-up of a Pennsylvania train carrying \$400,000 in pay rolls to Monongahela Industries' plants, was halted today when it became known that Carl Moorehouse, principal witness against the defendants, was missing.

DALLAS

DALLAS (Tex.) June 3.—Declaring that expenditures of the city plan department are an outrageous waste of money, Mayor Louis Blaylock today ordered all street-widening projects halted immediately, except the widening of Live Oak street, and advised the city-plan engineer to incur no more expenses on behalf of this department except on the Mayor's express order. The order halts work on half a dozen major city-planning projects, street widening and street-opening enterprises.

Property of the old Dallas Club, at Commerce and Poydras streets, was sold here today for \$15,000 to Joe Goldberg. The club for years was the home of the oldest and most exclusive social organization in North Texas, organized in 1887.

Sears, Roebuck & Co. will install a radio station, exactly duplicating station WLS, the Sears-Roebuck Chicago station, in Dallas this fall, it was learned here today.

BIRMINGHAM

BIRMINGHAM, June 3.—Five boys from the best families in Tuscaloosa were arrested there last night, wearing American flags over their faces and flourishing guns. The boys had taken charge of their course there, police say, and were driving men and women off the course with pistols and horsewhips. They were between 15 and 20 years of age.

Coal operators of the Birmingham district were somewhat stirred up over a report that the State convict department intends to lease a new mine in Walker county in which to work convicts. Officials are said to have approached the Moss-McCormack Company with a proposition to lease their mine in Walker county.

PHILADELPHIA

PHILADELPHIA, June 3.—Matthew J. Patterson, political leader of the Nineteenth Ward, was implicated today in the police craft charges which are being aired before a special police board of inquiry at City Hall. Lieut. August Toelke, one of the four police defendants charged with permitting high-powered beer to escape from the Fred Fell brewery, testified this afternoon that Patterson, who is a candidate for City Treasurer, asked him to allow beer to leave the brewery, which the police were detailed to watch.

A Camden-Philadelphia ferryboat, with several hundred passengers aboard, swung from the Camden dock into midstream this morning with Charles H. Willis, its pilot, dead at the wheel. Charles Lavette, the wheelman, sending something wrong when the signal for full speed had not been given, entered the pilot-house to find Willis dead. He seized the wheel and reversed the boat into her dock.

ATLANTA

ATLANTA (Ga.) June 3.—Enthusiastic over assurances given

Governor Keeps Dr. W.M. Dickie on Health Board

SACRAMENTO, June 3.—Three appointments were announced today by Gov. Richardson as follows:

Dr. Charles H. Spencer of Pasadena was named as a member of the State Board of Osteopathic Examiners to succeed Dr. D. L. Tasker of Los Angeles, resigned.

Dr. Walter M. Dickie of Los Angeles was reappointed a member of the State Board of Health. Dickie is secretary of the board. Charles B. Barnard of Fresno was selected as Superior Judge of Fresno county to succeed John E. Woolley, who resigned. Barnard was chosen from more than twenty candidates.

PROSPECTORS RUSH TO NORTHERN FIELD

VANCOUVER (B. C.) June 3.—Boats leaving for the northern mining districts this week were crowded with prospectors and miners were sleeping on decks. The rush started several weeks ago and has kept up with every sailing. Men, dogs and supplies are going in large numbers and big quantities, and many expect to stay in all winter.

**HIGHWAY POLICE
SHAKE-UP BEGUN***State Traffic Forces to be
Reorganized**Signing of Bill Enables
Plan's Execution**Uniform Regulations Will be
Enforced*

(BY A. P. MIGHT WIRE)
SACRAMENTO, June 3.—Steps toward a complete reorganization of the State traffic forces are being taken by the State Division of Motor Vehicles as a result of legislation approved by Gov. Richardson affecting the traffic officer situation. Will H. Marsh, the division chief, announced today.

These plans, it was stated, have been perfected for some time but were held up pending the outcome of Assembly bill No. 1274, which places the division in complete control of the traffic officers by insuring it against interference from the counties. With the signing of this bill, Marsh said, dual authority has been eliminated and the division is free to proceed with its campaign of law enforcement.

A first step in the reorganization scheme will be the formulation of uniform enforcement regulations throughout the State. Nine districts will be created with an inspector in charge of each, working under the direction of Chief Inspector Harder. Captains of squads in each county will report to division inspectors. Telephone connections will be established between division officers so that a violator escaping from one division may be apprehended in another.

Officers will be required to make regular reports to their captains on their work. All officers will wear a distinctive uniform.

First efforts of the force will be toward reducing the glaring headlight evil. One or two nights a week will be devoted to this work.

**WOMAN BARBER
BARS HER SEX***Missouri Tonsorial Parlor
Caters to Masculine
Trade Only*

(EXCLUSIVE DISPATCH)
SIKESTON (Mo.), June 3. Women have taken possession of barber shops most everywhere, but Sikeston has a shop which excludes them. It is owned by a woman. She employs eight lady barbers, her manicurists are women, and so are her shoe shiners. The patronage is limited to men only.

lished between division officers so that a violator escaping from one division may be apprehended in another.

Officers will be required to make regular reports to their captains on their work. All officers will wear a distinctive uniform.

First efforts of the force will be toward reducing the glaring headlight evil. One or two nights a week will be devoted to this work.

to Use Post in
Balkan Revolt**

(BY CABLE AND ASSOCIATED PRESS)
BERLIN, June 3.—The Deutsche Zeitung said today that it possesses a document, intended to be confidential, according to which M. Lewinsky, counselor of the Soviet legation at Vienna, is to take advantage of his diplomatic immunity and direct Communist activity throughout the Balkans.

The Deutsche Zeitung said the plan was to Bolshevik Bulgaria first and then to spread the movement to other Balkan states.

**BRITAIN REPORTS ON
BENEFICIAL FUNDS**

(EXCLUSIVE DISPATCH)
NEW YORK, June 3.—The cost to Great Britain for the year ended March 31 by the existence of health and unemployment funds, old-age pensions and unemployment grants, was \$68,819,000. According to official figures received by Bankers' Trust Company of New York from its British information service, the health insurance scheme accounted for \$8,948,000 of this amount, the unemployment insurance scheme for \$18,202,000, old-age pensions for \$25,810,000, and unemployment grants for \$8,761,000. In addition, loans totaling \$1,471,000 were made to local and poor-law authorities in connection with unemployment relief. The total of the outstanding loans made by the state to the unemployment insurance fund on April 1, 1924, stood at \$10,850,000.

SANTA MONICA

GREETING TO OUR VISITORS

California! Magic word! What pictures it paints in our thought!

Unique in history. Romantic always.

Land of adventure—of story and song.

To the forty-niner it was El Dorado—land of gold—where the course of life could be changed in a day, as in a fable.

Near the end of the nineteenth century, when financial and industrial development in the eastern part of the United States supplied the people with money and leisure to travel, they discovered the climate of Southern California.

Southern California commenced to grow as if by magic.

After the war people flocked to Southern California for rest, change, relief—and spent their money freely.

Growth was astounding. During this time industry discovered the resources and advantages of Southern California.

Now industry is repeating the history of the gold seeker and the tourist.

The advance agent of the industrial rush was the moving picture industry. It started just before the war.

The war metamorphosed our harbor and heavy industry through the building of ships.

Then the great increase in the discovery and production of oil placed the harbor at the top in oil exports.

The enormous increase in population placed the harbor at the top in lumber imports.

The in and out shipping at Los Angeles harbor was paying more than half the tolls of the Panama Canal.

Agriculture had greatly expanded during the war.

With this enormous development and growth real estate activity reached a state where conservatives began to hold back.

Reflection of national depression, with a lessened local rainfall and a brief livestock "epidemic," caused enough slowing-up to make it hard for some activities that were not well financed and stabilized.

Too many people came here expecting to tie up a "bonanza" with a "shoe string".

A brief readjustment became beneficial.

The natural wealth and resources of the State are more truly fabulous than the forty-niners and Spanish explorers ever dreamed.

The development of those resources is going on very rapidly.

The State, Southern California and Los Angeles County are all as solid and substantial as anything in the world can be.

Los Angeles is the capital of the Empire of the Southwest and of the Pacific Basin.

Its foundation is laid. Its future is plain.

The metropolitan area of Southern California seems destined to be the richest, best balanced, most interesting and attractive place in the world.

The front yard of this metropolis is partly shown in the pictures.

It is Santa Monica by the Sunset Sea—home spot deluxe—college and university center—recreation and amusement center—country club, beach club and golf club center—flying center—coming to be, with the building of great hotels, a society and tourist center—and, when a breakwater is built, the yachting center.

Some day also it is likely to be the "Fifth Avenue Shopping District" of the West.

Clean and light industries, using electrical power, will find a place in certain portions of this area because of the climatic comfort and efficiency. Heavy industry naturally goes toward the harbor at San Pedro.

Cool summers and warm winters in such a beautiful spot—and on the front edge of the world's most interesting metropolitan area—make Santa Monica a world prize as a residence location.

It is a place where the higher, finer and pleasanter things of life are centering and unfolding.

It is a place you will want to see while here.

Last year you read of the flight around the world.

It started and was completed at Santa Monica.

Donald Douglas, now world-famous Santa Monica, designed and made those ships in his Santa Monica factory.

The flight started from Clover Flying Field, Santa Monica.

Pacific Palisades, a community covering nearly 2000 acres, based on Christian ideals, is at Santa Monica.

Pacific Palisades Chautauqua, summer camps and schools are there.

The Los Angeles Athletic Club has acquired 250 acres in Santa Monica Canyon for a great polo, golf and outdoor sports field, where an elaborate club will be built.

The Uplifters' Club, made up of prominent business and professional men of Los Angeles, has a large tract in Rustic Canyon highly improved with an elegant club building and many expensive homes for members.

Occidental College has a thousand acre site in the foothills for a campus and a college community. This will be a college for men.

The University of California has a site in this district on which will probably be one of the largest universities in the country.

On top of the Palisades, 150 feet high, is a beautiful park. Next to this park is Ocean Avenue. On the east side of Ocean Avenue you will see wonderful hotel sites—viewing mountains, ocean and crescent coast. Some of these sites will have hotels on when you come again. One is partly completed now. Another will start building at once. Others are planned.

You will also see the greatest amusement development on the Pacific Coast. And seven beach clubs built or building.

You will see perhaps the most sightly and beautiful high school grounds in America.

You will see a civic auditorium where a municipal band plays throughout the year—principally out of doors.

You will see the Coast Highway up the Crescent Coast. Note lower right hand picture. This will soon follow the coast through to Santa Barbara.

Having seen and learned these things you will want to come back some day to spend a summer or a winter or to make your home.

The lowest temperature reached in winter is 32—highest 81—mean 53. The highest temperature in summer is 89—lowest 44—mean 62.

Santa Monica wants men and women of vision, ability and action commensurate with its potentialities, its great future, and its responsibilities to make their homes here.

TELLS VALUATION OF SOAP BUSINESS

College Professor Unusual Theorist
Big Air Balls Basis of Discoveries
Talk Last of Series of Lectures

By a "Times" Staff Writer
PARADISE, June 4.—The scientific value of a soap bubble has been explained and explained in a most unusual manner by a college professor here. The California Institute of Technology, Friday evening, was the scene of the last of a series of lectures by Prof. L. H. Glaser, of the University of California, Berkeley, on the subject of "The Soap Bubble as a Model for the Universe."

"Playing with soap bubbles," said Glaser, "has occupied the time of our greatest scientists and has led to many interesting discoveries. As early as 1663, Robert Boyle, an Englishman, served by that most famous of all geniuses, Leonardo da Vinci, was the first to suggest that a soap bubble was a model for the universe. He suggested that the bubble was a sphere, and that the universe was a sphere. He suggested that the bubble was a model for the universe, and that the universe was a bubble."

Glaser, who is a physicist, explained that the bubble was a model for the universe, and that the universe was a bubble. He explained that the bubble was a model for the universe, and that the universe was a bubble. He explained that the bubble was a model for the universe, and that the universe was a bubble.

Whittier House to San Gabriel Valley Bonds

LOCAL COMMUNITY
Whittier House, one of the most host last evening to the organizations associated with the Whittier House, was given a large campus and was attended by 500 persons.

Rex B. Kennedy, of the committee and presented a very attractive program, the visiting cities and more of the number.

The Clarion Four, a quartet from La Verne, received a ovation. The quartet was given a ovation. The quartet was given a ovation.

Other chambers of commerce, the Baldwin Park, San Gabriel, Temple and Commerce, Whittier Men's Chorus, Howard L. Hockett, of the association, and the recently elected board of the assembly and made address.

BANKER TALKS

LOCAL COMMUNITY
GLENN, June 4.—The keynote of an address by Mr. J. H. Glaser, of the California Institute of Technology, was the importance of the soap bubble as a model for the universe. He explained that the bubble was a model for the universe, and that the universe was a bubble.

Mr. Glaser, who is a physicist, explained that the bubble was a model for the universe, and that the universe was a bubble. He explained that the bubble was a model for the universe, and that the universe was a bubble.

EXCHANGE ASKS STOCK LISTINGS

Five Issues Accepted Since First of Year
Interest Rate on Call Money Should Be Lower
Los Angeles Unable to Cope With New York

Since the first of the year five issues have been accepted for listing on the Los Angeles Stock Exchange, according to P. H. Pettigrew, president. During last year there were twenty-four listings accepted, as against thirty-one in 1923.

Mr. Pettigrew states that at the present time the exchange is making an effort to secure the listing of the following issues, which are widely distributed in California and are listed in San Francisco Stock and Bond Exchange:

Armour & Co., "A" and "B" common; C. L. East Tractor Company; California Copper Corporation; California Petroleum Corporation; Great Western Power Company preferred; Honolulu Consolidated; North American Oil Company; Magnavox Company; Pacific Telephone and Telegraph Corporation, preferred and common; San Diego Gas and Electric Company 7 per cent preferred; Shell Union Oil Company preferred; Southern Pacific Company; Sperry Flour Mills Company common; J. J. Schell, president; Universal Consolidated Oil Company; West Coast Life Insurance Company; Western Paper Company; Western State Life Insurance Company; and Zellerbach Corporation.

"The resistance met by the stock exchange in its effort to secure new and desirable listings will never be overcome until the public has a better understanding of the advantages accruing from dealing in listed securities," said Mr. Pettigrew.

"For years it has been noticed that whenever the issues of a large corporation develop an active market on the Los Angeles Stock Exchange and acquire a nationwide distribution, and are accepted for listing on the New York Stock Exchange, trading in them on this exchange immediately begins to fall off. As long as there is such a wide disparity between the New York and Los Angeles interest rate on call or short time money, this condition will exist. We cannot expect to hold margin accounts in securities listed on both the New York and Los Angeles exchanges unless cheaper money can be obtained in Los Angeles.

It has been suggested that the local exchange work with the officials of the clearinghouse banks to secure a more liberal terms and at a rate of interest more commensurate with the New York rate of interest. If this could be accomplished, it would undoubtedly increase the number of money being steadily poured into New York from Los Angeles."

Street Railway Fares Highest Ever Recorded

Street railway fares are now at the highest point in history, according to statistics compiled by the American Electric Railway Association. On Monday, June 1, the average fare in 27 cities was 12 cents, and in 1924 it was 11 cents. The average fare in 1923 was 10 cents, and in 1922 it was 9 cents.

Fares of this year average more than 1 1/2 per cent over the fare of last year. There are only twelve cities of over 25,000 population now maintaining the original fare of 5 cents, and Los Angeles is one of these. The increase in fares in other cities is responsible for the increase in the average fare.

The electric railway industry is still experiencing a period of readjustment, but many companies have partially solved their troubles. Last year, twenty-two companies operating over 7,650 miles of track and representing 176,000,000 in securities, were discharged from receivership.

ELECTION CALLED TO VOTE SCHOOL BONDS

PHOENIX, June 3.—An election has been called by the officials of the Phoenix Union High School district on a question of issuance of \$150,000 bonds for erection of a high school building for special use of colored students and of \$150,000 for the acquisition of additional land on which to establish an athletic field and for extension of the present school grounds, taking in the balance of a tract of four city blocks.

BANKERS TEST STRENGTH

Underwriting Houses in Sharp Competition for New Business; Morgan and Blair Oppose Each Other

Several omens lately portend a bitter struggle within the ranks of the investment bankers for the leadership of the new aristocracy of the banking world. The principals in this financial drama have tested each other's strength tentatively in late months but none of the competitors has yet emerged to a position that can be called unassailable. Several notable victories have been won by each of the leading contestants and it is probable that an impartial summary will show the ranking practically unchanged.

Following the close of the war, the historic banking-house of J. P. Morgan & Co. ascended to the throne of international leadership as the direct result of the transference of the world's money market from London to New York. The sources and the practice built up in years past brought the Morgan group the desirable underwriting business, although competition from some of the newer American houses increased persistently.

Until recently, there was sufficient domestic business to occupy the attention and the resources of the newer generation of investment bankers. Lately, however, the demand for the services of the United States has declined appreciably, and necessarily competition has increased for the large domestic and foreign financing formerly going to Morgan and one or two of the older American houses.

To obtain this business three or four of the large houses have entered into intense competition with each other, with the result that several of the large accounts have changed hands. The most recent was the contest between Blair & Co., Inc., and J. P. Morgan & Co. for the Kingdom of Norway and the Government of Argentina financing. The Morgan group herebefore has handled the Norway business and the Blair syndicate has been dominant in Argentina, but when the negotiations were concluded, both accounts were in new hands.

The aggressive Dillon, Read & Co., led by Charles Dillon, one of the younger men in Wall street, clashed with the house of Morgan in the Dodge Bros. deal. In successfully completing this transaction, the Dillon firm negotiated the largest single piece of financing in American history, the \$100,000,000 Dodge Bros. deal, and distributing \$100,000,000 of stocks and bonds to the public. Blair & Co., Inc., and the Guaranty Trust Company were the leading associates in the sale of the securities.

BILLION SCORES AGAIN
What is regarded as another important strike for Dillon, Read & Co., is the affiliation announced on the 1st inst. of Col. James A. Logan with the company. Col. Logan has been representing the American government on the Reparations Commission, and will now capitalize his European experience as the foreign representative of Dillon Read & Co. This arrangement undoubtedly presages a further extension of this company's business in Europe, which will still further intensify competition.

Not long ago Blair & Co. took the Dominion of Canada financing from the Morgan firm. The Blair syndicate successfully bid for \$100,000,000 4-per cent cash notes against the Morgan group, which had previously handled the Canadian government business.

To adequately negotiate the large operations over which competition is the keenest, the syndicates have developed surprising strength, and executed some rather notable feats under the spur of rivalry. Aside from the Dodge transaction, the performance of the National City Company in distributing the New York Edison and the Consolidated Gas of New York issues is outstanding. These issues, totaling \$80,000,000, were sold in a single day by the National City organization under its own name and without the syndicate participation of other underwriters.

BLAIR'S BIG DEAL
Another noteworthy accomplishment was the creation of the Pan American Eastern Company by Blair & Co., Inc., through the purchase of the Doheny stock, with the aid of the Standard Oil of Indiana. The Blair group also has been dominant in the refinancing of Armour & Co., having distributed \$140,000,000 of securities in the last two years.

Except for the recent successes of competitors, J. P. Morgan & Co. has taken the best of the foreign financing. Its underwriting activities in 1924 and during the present year have included such important issues as the following: German government, \$110,000,000 7 1/2; 190,000,000 French 7 1/2; 150,000,000 Japanese government 4 1/2; 25,000,000 Australian government 7 1/2; 30,000,000 Belgian 6 1/2; and 45,000,000 Argentine 6 1/2. It also has come to the assistance of the French, English and Italian

London Daily Radio

BY ARTHUR W. KIDDY
(BY TELETYPE SERVICE)
LONDON, June 3.—Underwriters of recent new issues have decided to take a loss rather than continue to support the market, it was indicated today, when it became apparent that they were selling their holdings at current market prices. The New Zealand 4 1/2 per cent bonds at a discount of 1 1/2, the new South Wales 5 1/2 at a discount of 1 and the London County Council 4 1/2 at a discount of 1 1/2. In view of the fact that the financial issues are expected at an early date it became apparent that the underwriters no longer felt safe in holding their securities. They were forced to absorb from 50 to 75 per cent of the new issues.

The money market remains surprised at the continued absence of any effect from Tuesday's dividend payments on the war loan. The money market expects that early June maturities were all bought up in advance. As a result of the absence of ease in money the stock market continued weak.

CONVERSION LOAN DECLINES
The 3 1/2 per cent conversion loan dropped sharply to 76 1/2-16, partly due to a belief that the market would likely show much resistance in the next week or two. The holiday season is approaching and this usually restricts interest.

The end of the twenty-one day account is approaching, moreover, and this always brings scattered liquidation in the general markets. Dunlop Rubber continued firm, featuring the industrial list, closing firm at 10 1/2, equivalent to 45 for the pound sterling 1 share, as the present shares represent one-third of the new amount.

Railway shares were subjected to heavy selling, especially in particular issues. The pressure came from unidentified sources and it was suggested that as railway trade unions formerly held large blocks of these stocks, it was possible that their heavy expenses necessitated the sales.

INVESTMENT POLICY CHANGES
It was possible, also, it was said, that a change had been made in the investment policy for previously when labor troubles threatened, the unions' assets were in stocks most seriously affected by the disturbance.

Speculative interest remains at a low ebb, oil shares continuing unchanged, rubbers responding poorly to the higher prices for crude supplies. Investors continue to regard the market as speculative, but the present artificial basis.

Interest in South African platinum shares apparently is subsiding, but nitrate stocks are attracting more attention on announcement of the new price list and reports of a possible reduction in the Chilean duty.

BUSINESS TODAY

(EXCLUSIVE DISPATCH)
NEW YORK, June 3.—Yesterday at noon the New York Cotton Exchange closed its activities for twenty minutes, from 11:45 to 12:15 to give its members an opportunity to digest the government report of the condition of the cotton crop. The wires precisely at noon flashed the news that the condition was 76.6 per cent. To the layman such a report does not mean much, but in the central market where prices are determined on the basis of future crops, the meaning is perfectly clear. To the specialist the figure meant that the present statistical outlook is favorable to a sizeable cotton crop. In other words to the trader, the report was bearish and when trading in futures was resumed the price broke 50 points.

So much for the technical side. What may we learn from the report and what does it leave to future development?

A condition of 76.6 per cent means that the crop now is in more favorable position, so far as can be judged by the statistics, to produce in volume at any time since 1918. It is the best condition in seven years. It compares with 65.8 for a year ago and with an average of 72 for the last ten years. Experts, indeed, figure that the present indication is for a crop of 15,000,000 bales of cotton this year as against a crop of 13,619,000 bales for last season's crop. The improved outlook for a bumper crop naturally bearsish on cotton prices, since the market had not expected the condition to be so favorable.

That the market for cotton rallied shortly after it broke yesterday and that nothing like a stable price can be arrived at yet awhile in the commodity, must be understood by anyone who looks beyond the government's figure of 76.6.

MINE AND OIL MEN TO MEET HERE

Southern Group to Discuss Recommendations Made by Mineral Conference

The southern group of the Mineral and Allied Industries of California will meet in Los Angeles tomorrow. The Mineral and Allied Industries of California is a name given to the clearinghouse of producers, users and distributors of mineral products and of related industries and utilities, formed at the Statewide mineral conference here last month.

At this meeting the southern group will develop ways and means to put in effect the recommendations made by the mineral conference. Included among these are the following:

Getting buyers of mineral products to specify California. Pacific Coast mines produce products on a basis of price, quality and service; reduction of foreign importations of minerals which retard development of the State's deposits; economic survey of the mineral industry to include taxation, mineral tariffs, marketed products, and consumption of mineral products, and freight rates on raw materials; formulation of publicity campaign to aid and encourage marketing; developing existing payrolls and attracting new ones; and securing participation of Pacific Coast region in carrying out the program.

The executive committee of the clearinghouse is composed of Charles W. Merrill of Merrill Company of San Francisco, chairman; Rush T. Hill of Hill & Hill, Los Angeles, vice-chairman; Charles E. Knight, industrial director of California Development Association, San Francisco, secretary; R. Sangster, industrial manager of Los Angeles Chamber of Commerce, vice-secretary; Robert Linton, manager of the Pacific Gas Products Company of Los Angeles, and Edwin Higgins, executive secretary of the California district engineer for Los Angeles of the State Mining Bureau, is secretary. Group chairman are as follows:

Metallurgical: C. Colcock Jones, M. E., Los Angeles; general non-metallurgical: C. W. Hill, president of the Nonmetallurgical Minerals Corporation, Los Angeles; clay and brick, J. E. Jellic, engineer of the Portland Cement Association, Los Angeles; crushed rock, sand and gravel, V. O. Johnson, Pacific Coast Sales and Gravel Association, Los Angeles; machinery and equipment, W. H. Moreland, president of Moreland Motor Truck Company, Los Angeles.

Movement of Cantaloupes is Under Way

After continued light shipments for a period of three weeks, the cantaloupe movement has finally gotten under way, according to a report of the American Fruit Growers, Inc., of Los Angeles. The shipments to date have been practically all of the new Hales' variety, of which there are only 5500 acres.

The bulk of the plantings are of Pollock 10-15 which are just starting to move now. Heavy movement is expected by the last of the week and the peak will probably come before the 10th inst. If the weather conditions are normal there will be a distinct lull after the first week, but a second peak later in the month. Quality is excellent. The trade reports that first arrivals have been the best in years. With an unusual scarcity of competing fruits and excellent quality of cantaloupes, all indications point to a successful market throughout the season.

There is a wide range in the quality of the new Hales' variety shipped from the Ventura district. In contrast to the situation two weeks ago the cabbage market has improved. The Coachella onion movement has practically ceased. There are probably not more than five carloads of onions remaining for shipment. A few stragglers of cauliflower remain for shipment from the Coachella district. All other districts have finished shipping.

CANADIAN SALES GAIN

(EXCLUSIVE DISPATCH)
TORONTO, June 3.—Canadian bond sales up to May 1, last, according to the Canadian Bond Association, total \$202,929,370, in comparison with \$186,112,195 in the same period of 1924, and \$182,511,949 in 1923. More than 50 per cent of these were sold in the United States, purchases in the republic amounting to \$105,813,000.

The End of Exacting Activity—Retirement

There is a time in the life of every man when he should "let down" and be released from the exacting activity of business—and every man hopes to be able to do so.

It requires more than wealth to really retire. If a man's investments necessitate constant care and supervision, his endeavors are defeated.

Investments which produce a dependable income without expenditure of appreciable time or effort lay the foundation for retirement.

The man who invests in conservative bonds is sure of complete peace of mind and a feeling of security. He provides for future comforts as well as physical and mental relaxation.

Our list of carefully selected bonds offers many desirable investments for every estate

Wheat Prices Advance; Corn Closes Lower

CHICAGO, June 3.—A flood of red wheat reports from the West, covering a considerable part of Illinois, Indiana, parts of Missouri and a large part of Kansas, turned a weak wheat market into a strong one. Prices at the top were up 7 cents above Tuesday's low and the grain was at nearly the best of the day, with July up 2 cents and distant futures 1/8 to 1/4 cents in Chicago. Minnesota, 20 1/2 cents; Kansas City, 19 1/2 cents; St. Louis, 19 1/2 cents. The strength in wheat affected other grains, and oats gained 1/8 cent, rye 1/4 cent, corn, while corn was easy on reports of sale and closed lower.

Crop reports were the most sensational the trade has ever had. The government weekly weather report says that conditions here have been favorable the past week and that wheat that was heading in Indiana was killed by frost. In Kansas the crop has been damaged by drought, blight, etc., which and but not the reports from Illinois and part of Missouri say that wheat about ready to harvest showed that there was nothing in the heads. Some of wheat reported here by George C. Bryant, Jackson Brothers crop expert, showed a good straw, but an absence of grain in the heads. The situation is probably the worst the trade has ever known and is not fully realized.

Wheat traders were disposed to sell early on the lower prices and poor export demand, but regretted to have sold and held higher prices than they could back. There was buying interest in strong local and eastern markets. July moved up to 1 1/4 and closed at 1 1/4 @ 1 1/4. September was 1 1/4 and the balance was 1 1/4 @ 1 1/4. Minnesota July was 1 1/4. Export business reported from the seaboard after the close suggested that 100,000 bushels had been sold for export and there were reports here for 25,000 bushels. Rye sales were 100,000 bushels to Norway, Copenhagen and Sweden.

Trade leaders are beginning to realize that wheat was damaged by being caught in the bloom by the recent cold weather and the damage is now beginning to show. Corn, although strong early, disappointed with wheat, but not selling pressure on bulge and closed at 1 1/4 @ 1 1/4. September was 1 1/4 and the balance was 1 1/4 @ 1 1/4. Minnesota July was 1 1/4. Export business reported from the seaboard after the close suggested that 100,000 bushels had been sold for export and there were reports here for 25,000 bushels. Rye sales were 100,000 bushels to Norway, Copenhagen and Sweden.

NEW ISSUE
\$2,100,000
The Kansas Power and Light Company
First Mortgage Gold Bonds Series "A" 6%

Dated May 1, 1925. Due May 1, 1955. Redeemable in whole or in part on sixty days' notice on any interest date up to and including November 1, 1945, at 105 and accrued interest, with successive reductions in redemption price on each May 1 thereafter of one-half of one per cent. Semi-annual interest May 1 and November 1, payable in Chicago or New York. \$1000 and \$500 coupon bonds with privilege of registration as to principal only and interchangeable with respect to denominations. Harris Trust and Savings Bank, Chicago, Trustee, and M. H. MacLean, Co-Trustee.

California Personal Property Tax Refund
The Company agrees to pay interest without deduction for any normal Federal Income Tax not exceeding 2% which the company or Trustee may be required or permitted to pay at the source, and to reimburse the holders of these bonds, if requested within sixty days after payment, for the Connecticut and Pennsylvania Four Mill Tax, the California Personal Property Tax not exceeding Four Mills per annum and the District of Columbia Five Mill Tax and for the Maryland Securities Tax not exceeding Four and One-half Mills per \$1.00 per annum, and for the Massachusetts Income Tax on the interest not exceeding 8% of such interest per annum.

Issuance of These Bonds Has Been Approved by the Public Service Commission of the State of Kansas
From official sources we summarize as follows:

PROPERTY
The Kansas Power and Light Company is controlled through the ownership of its common stock by the Kansas Public Service Company, which is a subsidiary of the Illinois Power and Light Corporation. The Company is constructing on the Kansas River at Tecumseh, Kansas, a modern steam electric generating station, together with 60 miles of double circuit steel tower transmission lines connecting Tecumseh with the electric utilities of the Kansas Public Service Company and subsidiaries at Topeka, Atchison and intermediate points. The initial generating capacity installed at Tecumseh will be 15,000 K. V. A., with water supply and power house designed for an ultimate installation of 90,000 K. V. A.

BUSINESS
The Kansas Power and Light Company property has been leased to The Kansas Public Service Company for a period of 50 years, or 20 years beyond the maturity of these bonds. The terms of this lease, which has been approved by the Public Utilities Commission of the State of Kansas, provide for monthly payments, constituting an operating charge of The Kansas Public Service Company. The estimated cost of the first unit of the power house, plus the transmission lines, will be \$3,600,000. The estimated rental to be paid under the lease during the first twelve months of operation amounts to \$468,000, or over 3.70 times the annual interest requirements of this issue. This income will probably vary with adjustment of rentals under supervision of the Public Utilities Commission of the State of Kansas, subject to the conservative restrictions of this lease. Surplus earnings of The Kansas Power and Light Company after preferred dividends will be available for the payment of dividends upon the common stock held by The Kansas Public Service Company.

EARNINGS
The combined gross earnings for the year 1924 of the properties of the Kansas Public Service Company and subsidiaries were \$2,091,625; net earnings (after operating expenses, maintenance and local taxes) were \$614,736. Substantial economies in operation, resulting from the use of the new plant, with the latest improved types of equipment, will save the Kansas Public Service Company a considerable part of the rental which it is to pay and make available additional energy for sale to the growing territory served.

SECURITY
These bonds are secured, in the opinion of counsel, by a first mortgage on the entire fixed property of the Company now owned or hereafter acquired, subject to underlying bonds, if any, on hereafter acquired property. The amount of First Mortgage Bonds (this issue) issuable against the initial installation mentioned above is limited to \$2,100,000 par value. The Illinois Power and Light Corporation has agreed to supply as needed all funds (not supplied by the Kansas Power and Light Company) necessary for the completion of the above mentioned initial installation and to pay interest on these bonds during the construction period. The Deed of Trust provides that additional bonds may only be issued under conservative restrictions.

These bonds are offered for delivery when, as, and if issued and received by us subject to the approval of counsel.

WE RECOMMEND THESE BONDS FOR INVESTMENT
Price 100 and Interest to Yield 6%

E. H. Rollins & Sons
Founded 1876
Harris Trust & Savings Bank
Organized—N. W. Harris & Co., 1882, Incorporated 1907.
Spencer Trask & Co.
Marshall Field, Gloré, Ward & Co.

The above information and statistics have been obtained from sources that we deem reliable and, although not guaranteed, are accepted by us as accurate. All bonds offered subject to prior sale and change in price without notice. Accrued interest to be added to all prices.

6.25% Income For Utility Investors
THE general rise in security prices over the last year has been particularly marked in the public utility field. Many investors who confine their holdings chiefly to utility securities are now finding their income considerably reduced through the refunding of high coupon bonds with issues yielding 3.25% to 5.75%.

The Times

THURSDAY MORNING, JUNE 4, 1925. —PART II. 20 PAGES.

Present and Ex-Ruler of Nobles With Court

Officials of the Fezzed Kingdom

Above (left)—Ex-Imperial Potentate James E. Chandler and Imperial Potentate James C. Burger. Above (right)—New Imperial Outer Guard, Dana S. Williams, of Lewiston, Me., as Imperial Outer Guard of the Shrine of the Goddess, and the selection of Philadelphia as the scene of the convention were the principal happenings yesterday in the celebration of the Imperial Council, Ancient Arabic Order, of the Mystic Shrine.

The vote for Imperial Outer Guard was as follows: Williams, 287 votes; Leonard P. Stuart, Washington, D. C., 155; J. F. Reid, Windsor, Ont., 155; Mocha Temple, 76; Allan McCanta, Meridian, Miss., 76; Hamann Temple, 51; Albert H. Lader, Philadelphia, La Lu Temple, 1; total 699.

Inasmuch as 300 votes were necessary to choose, Noble Reid withdrew, followed by Nobles McCanta and Stuart, and moved that the vote be made unanimous for Williams.

The elections which preceded, and which were not contested, chose James C. Burger of El Jebel Temple, Denver, Imperial Potentate; Daniel W. Cronin of Alcazar Temple, Montgomery, Ala., Imperial Deputy Potentate; Clarence M. Dunbar of Palestine Temple, Providence, R. I., Imperial Chief Rabbi; Frank C. Jones of Arabia Temple, Houston, Tex., Imperial Assistant Rabbi; Leo V. Youngworth of Al Malakiah Temple, Los Angeles, Imperial High Priest; and Prophet: Eaton J. Fletcher of Damascus Temple, Rochester, N. Y., Imperial Oriental Guide; Thomas J. Houston, Medinah Temple, Chicago, Imperial First Ceremonial Master; Earl C. Miller, ZaGazig Temple, Des Moines, Imperial Second Ceremonial Master; Clifford Irwin, Mohammedi Temple, Boston, new Potentate; James C. Burger, new Potentate; J. B. Williams, E. A. Cutts, Past Imperial Potentate; Leo V. Youngworth, Phil Shaffer, E. J. Jacoby, Past Imperial Potentate.

The greatest cheering of the Imperial Council session went up when the Imperial Divan, Nobles of the Imperial Divan, and the Imperial Potentate, who had been restored to health and usefulness at the San Francisco hospital, were taken to the Shrine of the Goddess, where they were to be crowned. The Imperial Potentate, who had been restored to health and usefulness at the San Francisco hospital, were taken to the Shrine of the Goddess, where they were to be crowned.

CONTESTS OVER ELECTION LOOM

Myers and Ash Late Filing Primary Expenses

Jacobson May Ask Recount in Thirteenth District

Total Vote Cast Surpasses All Expectations

While City Clerk Dominguez yesterday completed the tabulation of the semi-official returns from Tuesday's municipal election, there were strong possibilities that complaints may be filed against Controller-elect Myers and Councilman-elect Ash of the Fourteenth Councilmanic District, for violation of the election-law requirements as to filing primary-campaign expense accounts, and also that there might be a recount asked of the Superior Court by Carl I. Jacobson, candidate in the Thirteenth Councilmanic District.

Despite the fact that Jacobson's name was not on the ballot at Tuesday's election, his friends wrote in his name and his total under the semi-official returns was \$644, which was but seventy-eight votes less than Joseph F. Fitzpatrick, the high man in the district, received. In case the City Council's canvass of the semi-official returns should show similar close margin, it is considered probable that Jacobson will ask the court for a recount. A recount of the primary vote is carried out by a board consisting of the Mayor, City Clerk and City Attorney, but the recount of final-election votes must be carried out by the court and carried out under court direction.

LATE FILING ACCOUNTS
 In the cases of City Auditor Myers and Councilman-elect Ash, they were one day late in filing their primary-campaign expense accounts. The election laws state that in cases where candidates violate the provisions of the law and are convicted in court of these violations, they are automatically disqualified from holding the office to which they were elected. But as the politicians read the law yesterday, this action would only disqualify City Auditor Myers and Councilman-elect Ash, and it would then be the duty of the new City Council to fill the vacancies by appointment. As the new City Council will likely be opposed to Councilman Mushet being appointed, and Councilman Baker being appointed, these two candidates would not secure by their action the offices for which they had been unsuccessful candidates. So this situation caused the supporters of Councilman Mushet and Baker to hesitate about filing complaints against Myers and Ash for violating the election laws.

With the election over, interest was manifested yesterday over the next president of the City Council. There are two chief candidates for this post, Boyle Workman, who is serving his second term as Council president and who was re-elected at the primaries, and Robert M. Allan, who also was elected at the primaries. Indications are that Mr. Workman is the stronger of the two candidates. The organization meeting of the new Council is scheduled for July 1, when the president of this body will probably be chosen.

UNEXPECTED VOTE TOTAL
 Despite the Shrine Week activities and the absence of a city-wide election, the total vote cast in the city at Tuesday's election was 115,488, which was 30 per cent of the registered vote and was between 20,000 and 25,000 more than expected.

The Lancer
 by Harry Carr
 YEH, SURE and honest, Nobles, this is post-TIVE-ly unusual.

JUST AN INSULT!
 It had only been an old-fashioned California rain, with the clouds washed out, and the rain clouds tipped upside down, and of Bill Mulholland prowling around in his rain coat to see if the reservoirs were going to upset.

GOOD-BYE, MONEY!
 It is perfectly obvious to any sane person that no European country, except England, has the slightest intention of ever paying back our money.

WHAT'D BUTCHER SAY?
 To the butcher I would say: "I wish to inform you, my dear fellow, that I recognize the debt. Yes, indeed. Consider the debt recognized."

"Now suppose we just let the matter drop for a period of ten to twenty years. At the end of that time we will talk it over again some time. Not that you will ever get the money; but it will be an interesting topic of light conversation."

RICH—BUT PATIETIC
 If there is any pathetic object on earth it is a successful man trying to account to a newspaper interviewer for his success.

I have interviewed about a million of them. They always gulp and stammer and look miserable and finally mutter: "Jee hard work; that was all."

Hard work, alas, hasn't much to do with success. The world is full of hard-working, poverty-stricken plodders.

As a general rule, successful men have succeeded through high imagination—imagination to ride across a desert and see it watered into a flowering garden; the imagination to watch steam lifting a teakettle lid and see it running a locomotive.

SCIENTISTS CAN'T ALWAYS BE RIGHT
 Scientists say that the lowest form of conscious intelligence exists in a certain deep-sea worm that crawls around in the cold and impenetrable darkness of the ocean floors.

But, in my opinion, the deep-sea worm is a prodigy of brains—a scintillant, flashing, overpowering intellect compared with these morose morons who, during the traffic crushes of Shrine week, get jammed in the tunnels and sit there, idiotically honking their auto horns.

KEEP IT INSIDE
 To the police warning about pickpockets I would add this word: Don't keep your wad in your back hip pocket.

That's the reason I woke up one morning during a Chicago National Republican Convention with 2 cents in my pocket.

When the police detective sergeant heard I had my money in my back pocket, he put his pencil back in his pocket and yawned. He had no desire to interfere with the workings of a just Providence.

Sister's Suit to Nullify Weber Will on Trial
 Trial of Mrs. Muriel Weber Palmer's suit to break the will of her sister, Mrs. Minnie C. Weber, began yesterday before a jury in Judge Watson J. Wood's department of the Superior Court. Mrs. Palmer was cut off in the will with but \$10.

TUBE BONDS TO LESSEN ACCIDENTS

Pedestrian Tunnels Will Decrease Mishaps, Auto Club Officials Say

The decided approval of the \$150,000 pedestrian tunnel bond issue which was registered by Los Angeles citizens at the election is the preamble to a big decrease in child-motor accident fatalities and injuries, it was predicted at headquarters of the Automobile Club of Southern California today.

Los Angeles has had a bad record, not only in motor-vehicle fatalities generally but also in those occurring among children. It is pointed out by safety executives of the Auto Club. In cities of the country, Los Angeles stands third in auto fatalities and held a high position last year. Of all deaths to children under 15 years of age in the State, during March, last, 20 per cent occurred in Los Angeles city, it is further shown.

Just as the traffic ordinance which took effect the first of this year has led to a big decrease in auto fatalities, stated club officials, so will the safety tunnels bring about a further reduction. Only eighty-two motor deaths have occurred in the city for the year to date, records of the Auto Club safety department show, although 118 were reported for last year to June 1, 1924.

As proof that the school tunnels will reduce accidents to children, club executives point to the one that has been in operation for one year under Sunset Boulevard near Micheltorena school. Not one accident to children has occurred there during the year, although auto collisions with the youngsters were frequent before the tunnel was built.

Von Stroheim Asks for Final Citizen Papers

Eric Oswald Hans Carl Maria Von Stroheim, of Austrian nationality, known in motion-picture circles as plain Eric Von Stroheim, film director and actor, yesterday filed petition in Federal District Court for having on his final citizenship papers.

The hearing is scheduled to take place next September. Von Stroheim desires to drop the Oswald Hans Carl Maria from his name and be known as Eric Von Stroheim, American citizen.

His witnesses were Louis Germonpre, assistant motion-picture director, 4627 Rosewood avenue, and Ben Westland, publicity man, 1827 Grand Place.

Von Stroheim's petition discloses that the director of "Greed," "Merry Widows" and other famous motion pictures, was born September 22, 1885, in Vienna, Austria, and came to the United States on November 24, 1909. He has lived in Los Angeles since December 24, 1912.

A bit of carmine grease in the hand of Blanche La Fleur, became a pencil to jot down the automobile number of a man she said beat her and threw her from his car, and led to the arrest of Jack O'Neil, formerly a private detective.

Yesterday in Police Judge Pope's court O'Neil was found guilty of a charge of battery. He will be sentenced tomorrow.

COUNCIL TO PARE CITY EXPENSES

Committee Must Make Thirty-Million Demand Fit Income

The City Council's Finance Committee is expected to begin next week its hardest work of the year, that of reducing the requests of the various departments, \$10,000,000 to come within the city's estimated income for the next fiscal year beginning July 1. The income is expected to be \$20,000,000 and the budget must be completed before July 1, so this work will fall on the present Council.

The new Council takes office July 1, and of the present Finance Committee, Councilman Baker and Mushet will retire on that date. President Workman, the member of the committee, was re-elected to the next Council.

SEWER AND PAVING CONTRACTS GIVEN

Two important street contracts were awarded yesterday by the Board of Public Works. One was for the paving and sewerage of Meyer street in the Los Angeles Harbor district between Thirty-sixth and Thirty-seventh streets, for \$5,140. The second contract was awarded to the Warren Construction Company for the paving of Beachwood Drive from Sunset Boulevard to Santa Monica Boulevard for \$26,396.

SELLERS WILL GIVE CRIMINOLOGY TALK

J. Clark Sellers, noted criminologist, will be chief speaker at the monthly meeting of the Southern California Academy of Criminology next Tuesday night in Science Hall, Southern Branch, 855 North Vermont avenue. His subject will be "Detection of the Criminal." Other speakers will be Under Sheriff Blaculuz, Assistant Captain of Detectives Cato, and Chief Deputy Public Defender Vercoe, the latter of whom will speak on "Legal Investigations."

ELECTION RETURNS

Following are the complete semi-official returns at Tuesday's municipal election, as compiled and announced yesterday by City Clerk Dominguez:

TODAY'S SHRINE PROGRAM

Imperial Council Session, Biltmore Theater, 10 a.m.
 Concerts and Competitive Drills, Coliseum, 10 a.m.
 Shrine Day. Visiting Nobles and their ladies will be entertained by the Pasadena Shrine Club with headquarters at the Biltmore. A delightful trip in the morning and an evening in the Rose Bowl at 3 p.m. are the program, with a luncheon at Fairbridge Country Club.
 Mrs. Jane C. Burger, wife of the new Imperial Potentate, and the ladies of the Imperial Divan, Flintridge Country Club, will entertain at the Biltmore.
 Shrine Day for ladies of visiting Nobles, Lafayette Park, 8 to 10 p.m.
 Parade, Figueroa street and the Coliseum, 7 p.m. Line up from Figueroa and Adams streets to Santa Barbara, to the Coliseum. To be followed immediately by the Motion-Picture Parade and Pageant, Figueroa street and the Coliseum. Line of march, south from Adams and Figueroa streets to Exposition Boulevard, to Vermont avenue, to Santa Barbara, to Manila, to Coliseum.
 Shrine Bands and Chanters at Pershing Square, Temple Baptist Church, St. Paul's Cathedral, and at the office of Pierce Bros. & Co. when a group of business men of the district met. W. H. Pierce, president of the Major Street Traffic Commission, is at the head of the club being organized. Charles Shaffer is the secretary.

PICKFORD PLOT
HEARING TODAYThree Suspects Face Justice
for ArraignmentDistrict Attorney Asks Bail
be \$50,000 EachGrand Jury Meets Tomorrow
to Act on Case

Three suspects in the Mary Pickford kidnapping plot will be arraigned today before Justice Bland in Department B on charges of conspiracy and probably will be bound over to Superior Court. The District Attorney's office has recommended that bail be set at \$50,000 each.

Application for a writ of habeas corpus for Charles Z. Stevens, one of the three, was dismissed yesterday by Judge Holtz. Following the filing of complaints against the trio Monday night. The other two suspects being held are Adrian J. Wood and Claude Arthur Holcomb.

The grand jury will convene in special session tomorrow morning to take up the case. Dist. Atty. Keyes assisted by Dep. Dist. Atty. Hill and Fricke will present the case to the grand jury.

Attorney R. H. Stevens, Stevens' counsel, expressed in court yesterday satisfaction that he had forced police and the District Attorney's office to issue a complaint through his application for a writ.

The three are charged in the complaint issued by the grand jury with conspiracy to extort \$200,000 from relatives and friends of Mary Pickford, moving picture star.

Harry Raymond signed the complaint.

THOUGHT IT CAME
FROM SOUL OF STONESUCH WAS THALES'S VERSION
OF SOURCE OF ELECTRICITY
IN 555 B. C.

"The stone has a soul since it moves iron," as an expression having a relation to electricity's curving iron or an electrical power source of a hundred thousand horsepower, appears to be more nearly a "wise crack" by some heavy sage. In truth, Thales said it, and when the housewife turns the switch of her washing machine Monday morning she may well be grateful that he said it, or, more explicitly, had occasion to say it.

The reason lies in the "mystic" power of electricity which is chronicled in the activities of Thales in 555 B. C., the generally accepted birth date of electricity. Thales at that time discovered that certain pieces of a particular iron ore, the variety now called magnetite, possessed the power of attracting other similar pieces of iron. This was the first known phenomenon of magnetism which Thales, first philosopher, was the first to explain, as recorded for posterity by Aristotle.

Tracing this phantom "soul" of a stone, scientists worked their theories to conclusions, found other theories to explore and adding their discoveries, and by the time electricity became revealed as a source of power to be put to work. On through twenty centuries research has progressed toward the comparatively sudden application of electricity to the use of man in the last generation.

Franklin attracted popular attention to the subject, but it was not until Samuel Morse in 1844 transmitted the first telegraphic message that electricity became a really vital contribution to the world. Bell contributed the telephone three years later and then came the incandescent lamp.

One by one the secrets of the mysterious power were being revealed, the relation between light and heat, electromotive force and so on. With each discovery, ingenuity supplied a task. Motors came, and electricity went to work in earnest.

From a laboratory subject, it became a utility. It bore man's message, lifted his mind, and brought its shoulder to the wheels of industry, chased the mules off the street cars and mother off the wash board.

Electricity has taken to running many of our locomotives, our sewing machines and even cutting our hair. It busies itself in the kitchen at cooking its master's food and warms him while he eats it. It gives him the choice of a nation's entertainment at his own leisure. Servility could not be more abject, or adulation more medicinal in its care. "It moves iron," Thales said. Then it moves the world now, and it can be granted that it "has a soul." [Kansas City Star.]

WIRES HELP HOOVER
KEEP ENGAGEMENTS

Secretary of Commerce Herbert C. Hoover recently addressed an audience in Washington, D. C., and an audience in New York City on the same night.

He was one of the principal speakers at a banquet given under the auspices of the Bureau of Standards in the Wardman Park Hotel, Washington, D. C. On concluding his address there he excused himself for a few minutes while he went upstairs to another room where had been installed a microphone tied up to the long distance telephone line, transmitting at the public address system at the Hotel Astor, New York City, where the Academy of Political Science was holding a dinner. In this way Secretary Hoover addressed the diners in New York, his speech being broadcast by station WEAF.

This is said to be the first time that a man was able to cover two speaking dates in one night at a distance of 225 miles apart. [Telephone Press.]

MEMORIAL TRIBUTE
UNVEILING POSTPONED

The unveiling of the Confederate Veterans' Memorial at the Hollywood Cemetery, which was scheduled for yesterday afternoon, has been postponed until 2:30 p.m. Saturday because of the rain. The public is invited to attend the elaborate ceremonies which will mark the unveiling.

Screen Families Divided by Divorce

Two Wives Given Decrees
Above—Marjorie Daw and A. E. Sutherland. Below—Edna Mae Acord and Art Acord.

FILM CELEBRITIES UNMATED

Marjorie Daw, Wife of Eddie Sutherland; Mrs. Acord Are Both Granted Decrees

Three film celebrities became unmated yesterday. They were Eddie Sutherland, Marjorie Daw and Art Acord. Marjorie's divorce was unheralded and unannounced and it was not until she took the witness stand that her identity was revealed. No one in court had recognized her as Mrs. Albert E. Sutherland, wife of a film director.

Mrs. Daw appeared before Judge Gates, charging desertion. The couple were married April 20, 1923, with Mary Pickford as bridesmaid.

"Just why he left me I really do not know," said Mrs. Sutherland, demurely. "He explained that he could not adjust himself to married life and must have his freedom. I tried my best to make him happy but I couldn't do it. I sent him several messages inviting him to return to me but he always replied he was satisfied to live apart."

"He must have been hard to please," commented Judge Gates. "Decree granted."

Without settling the custody of the film dog, Rex, dearest possession of Mr. and Mrs. Acord, Mrs. Edna Mae Acord's divorce suit was tried in Judge Sumnerfield's court and the decree granted. Mrs. Acord had sued on five of the six possible grounds in California, but dropped four of these yesterday, thereby clearing the name of Louise Lorraine, film actress, who had been named as co-respondent.

SANER HITS PATERNALISM

Legal Leader Tells Masonic Club That Nation's
Progress Depends on Individual Effort

Deploping the "lamentable tendency" of individuals and communities to lean on the government for support, and pointing to the dangerous drift toward paternalistic policies, Robert E. L. Saner of Dallas, Tex., president of the American Branch of the International Law Association and an active thirty-third degree Mason, in an address before the Masonic Club at the Alexandria yesterday declared that national accomplishment is dependent upon the aggregate of individual attainments.

"The progress of our nation is dependent upon the exemplification by individuals, of those virtues essential to good citizenship," said Mr. Saner. "The first duty of an American citizen is to support himself. It is a fallacious idea that the government can 'run itself' or that God will keep America safe for democracy, irrespective of the use which citizens make of their God-given faculties."

Stressing the value of individual liberty and of the right to private property, guaranteed by the constitution, the speaker said that equal opportunity before the law has been one of the outstanding principles of the operation of which has made America prosperous.

"It is our duty to show the radical agencies that this opportunity, for rich and poor, exists today as it did in former times, and to repeat often the stories of the successes of such men as Abraham Lincoln," said the speaker.

Quoting President Coolidge's expression, "Knowledge and freedom walk hand in hand," Mr. Saner emphasized the value of public schools and pleaded for the spread of education among the 10,000,000 illiterates of the country.

"The people have the right to insist that the instructors in our schools should be men of high character, the cost of liberty, the necessity of loyalty in peace and war and their duty and privilege to take interest in government affairs," said Mr. Saner.

Speaking of America as a nation imbued with the festive spirit, Mr. Saner said that it is the duty of good citizens to seek to give a high standard to the quality of amusements for young people.

Mr. Saner will preside at the intercollegiate oratorical contest to be conducted at the Philharmonic Auditorium tomorrow evening.

Irving Mitchell, president of the Masonic Club, announced that at noon on the 5th inst., the club will give a banquet in the Alexandria ballroom in honor of J. C. Burger, incoming Imperial Potentate. Members of the Imperial Divan will be honored guests. Music will be furnished by the orchestra.

ALL SET FOR
BENEFIT FOR
CLUBHOUSEYoung Men's Institute to
Present Score of Acts at
Philharmonic Tonight

Everything is in readiness for the benefit performance to be given by the Young Men's Institute at the Philharmonic Auditorium this evening. The program, which includes a score of numbers, has been arranged by Edward Tolo.

Puente from the event will go toward the erection of a clubhouse for the Y.M.I.

Features of the program are, Arthur Broiles and "Bug" Riccio, announcers; Buddy Graham and Charlotte Kelly, eccentric and clog dancers; drill team exhibition—Students of St. John's Military Academy, 10 years of age; courtship of Sister Tommasino; child dance—Ethel Meglin's Wonder Kid; a Russian solo—Sergei Petrov; performance, featuring little Marilyn Meglin; Edward Scovill, baritone; Poly Hign, Gym Club, stunts; Hammett, under the direction of Joe Hamilton, featuring little Margaret Hamilton; harp selections by Mrs. J. C. Ackard; solo-accompanist; clog and eccentric dancing by Phyllis Webb and Buddy Graham; accordion selections by Louis Palla; acrobatic and contortionist act by Prof. William Fisher's Marvels; courtship of Walter With Studios; "Let Us Forget," dedicated to the American Legion orphan drive; Margaret Vallette; Dolly Graham, solo-accompanist; Tut Mace in a different acrobatic dance; Kinney and company in a one-act sketch, "The Gallery"; "The Dances of the World," featuring the dances of the world; "In Old Seville," Spanish songs and dances, featuring Horace Hererra and Raquel Drew; blackface comedian, E. H. Volinger in monologue and songs; "Say It with Flowers," featuring Miss Michel Sessler; William Quintana; courtship of Miss Horace Williams; studio; C. H. Hartford in a one-act sketch, "The Gambler."

CONTESTS OVER
ELECTION LOOM

(Continued from First Page)

the most optimistic had expected would be cast. But during the late afternoon and evening of Tuesday the supporters of the councilmen's reelection to the city council were busy bringing voters to the polls in automobiles, and this brought up the total.

Interesting features of Tuesday's election included the heavy "write-in" vote for Carl J. Jacobson in the Thirteenth Councilmanial District, which could not be put in local political history that a "write-in" candidate received a vote as heavy as Jacobson's.

The election returns were handled by City Clerk Dominguez in a most efficient manner and early yesterday the complete vote was being tallied.

BRILLIANT ORATOR
TO BE HEARD HERE

Robert Sessions

CHAMPION
WILL SPEAK
AT BANQUETHigh School Group Winner
Will Repeat Constitution
Address Here Saturday

Those who have been eagerly looking forward to the privilege of hearing Robert Sessions, champion high school orator of the United States, deliver his winning speech will have an opportunity to gratify that desire on Saturday night, when the gifted Alabama youth will be one of the speakers at the banquet given at the Biltmore by the Better America Federation.

Mr. Sessions will reach Los Angeles tonight and will be present at the finals in the National Intercollegiate Oratorical Contest, to be held Friday night in the Philharmonic Auditorium. He will, however, not speak on that occasion. The only opportunity to hear him will be at the banquet Saturday night, when he will be one of the speakers.

Mr. Sessions is a member of the American Bar Association, who has made a special trip to Los Angeles to preside at the banquet and the contest. Eugene F. McElmeel of Loyola High School, Los Angeles, winner of second place in the National Oratorical Contest, and John Aisio, winner of first place in the contest on the American Constitution, recently conducted among Japanese students in this section.

The first of the collegiate finalists to reach Los Angeles is Clarence McLean Gifford of Wesleyan University, Middletown, Ct., champion of the Northwestern States, who arrived yesterday afternoon. The six other finalists, who will arrive today, are: William M. Ryan, St. Edward's University, Austin, Tex., southern champion; Edward F. Barrett, Jr., Canisius College, Buffalo, N. Y., northern champion; George C. Crelia, Franklin and Marshall College, Lancaster, Pa., eastern champion; Bak Wright, Northwestern University, Evanston, Ill., Central States champion; J. Duane Squires, University of North Dakota, Grand Forks, N. D., midwestern champion; and Jack P. McGuire, University of Oregon, Eugene, Or., Pacific champion.

The prizes at stake at the meeting Friday night total \$5000, being divided as follows: First, \$2000; second, \$1000; third, \$500; fourth, \$450; fifth, \$400; sixth, \$350; and seventh, \$300.

The prizes at stake at the meeting Friday night total \$5000, being divided as follows: First, \$2000; second, \$1000; third, \$500; fourth, \$450; fifth, \$400; sixth, \$350; and seventh, \$300.

BANK IS ROBBED
BY 'SACK' BANDITGunman Walks in Branch
With Pistol and Paper BagForces Trio to Lie Down on
Floor, Seizes \$2894Desperado Escapes in Auto
Just Taken by Force

A bandit carrying a gun in one hand and a paper bag in the other stalked into the United States National Bank agency at Eighth and Santee streets shortly after 3 p.m. yesterday and departed through a side door with \$2894 in his paper sack.

The gunman is believed to have made his getaway in an automobile he had taken but a few minutes before at the point of a gun from G. A. Parsons of 1579 West Fifth street. Mr. Parsons was sitting in his car in front of 915 Maple avenue when the bandit approached him from the rear. He prodded him in the ribs with his gun, forced him out of the car and drove away.

The bandit entered the bank agency through the front door and before the three officials and employees were aware of his intention he had made his way behind the cage and trained his revolver on Morris Klein, manager, and Miss Nellie Ryker, book-keeper.

At the point of his gun, they were forced to join Leon Meyers, cashier, who was working in the rear of the bank. There they were compelled to lie down on the floor, the bandit declaring he was desperate, needed the money and would shoot to kill at the first untoward move.

Mr. Meyers was a little slow in lying down and the bandit kicked him in the neck to enforce his command. Then he proceeded inside the cage and scooped up all the money there, which he placed in his sack.

As he turned to leave, the desperado warned his victims that a confederate was waiting outside with a gun trained on them and that if they should arise before he was away they would be killed. Then he walked to a side door and fled down Santee street.

Police were summoned at once and took up the bandit's trail. He was dressed in a pair of blue overalls and his face bore several days' growth of beard. He was pulled far down on his forehead.

The hold-up of the agency yesterday was the second in a little more than a year. In March, 1924, the bank was robbed of \$600 by bandits. Mr. Meyers being one of the victims at that time.

Less than five minutes before the gunman entered the agency, the special guard on duty there had left and from this detectives drew the conclusion that the bandit had timed his movements after watching the bank for some time.

PASTOR TO
COOLIDGES
VISITS CITY

Dr. Jason Noble Pierce
Will Preach Sunday at
New Wilshire Church

Dr. Jason Noble Pierce, pastor of President Coolidge's church in Washington, D. C., arrived in Los Angeles yesterday. Dr. Pierce is here to take part in the dedication exercises of the new Wilshire Boulevard Congregation Church at Wilshire and Plymouth boulevards coming at the special invitation of Dr. Frank Dyer, pastor of the church.

Five years ago Dr. Pierce left the pastorate of the Second Dorchester Church of Boston, the largest Congregational church in the city at that time, to go to the capital. There he became minister of the First Congregational church, and since that time has had President and Mrs. Coolidge as members of his congregation.

The church has 1300 members, and will soon start a campaign for the erection of a new edifice to rank with the best in the nation.

Dr. Pierce is a graduate of Amherst, 1902, and is now a member of the board of trustees of that institution. He wrote the words and music to one of America's most popular songs, "Cheer for Old Amherst," and also wrote the words and music for Oberlin College's "Alma Mater." During the war, Dr. Pierce was chaplain of the Second Division having thirteen of two chaplains under his direction.

He served in France, Belgium and Germany, with the Second, one of the first units to go into action.

Tonight the Washington pastor will speak at a banquet in his honor at the Wilshire Church. Sunday he will preach twice at the church, the general public being invited to the services in the morning and evening.

BLANKENHORN ON BOARD
David Blankenhorn, Los Angeles financier, with offices in the Pacific Mutual Life Insurance Building, was elected a director of the Fairmont Hotel in San Francisco yesterday.

Puffy Eyelids
Your swollen eyelids pretty surely indicate Bright's Disease. A urine analysis will perhaps show casts and albumen—your inflamed kidneys are not doing their work properly. There is no time to trifle—begin immediately to restore normal conditions—put your faith in Mountain Valley Water. A leading physician says: "It has become routine procedure with me to prescribe Mountain Valley Water for my kidney disease patients." Come to our office and read the grateful testimonials from hundreds who have been relieved. Sample this refreshing mineral water from Hot Springs, Ark. Or phone for our booklet.

Retreat for Catholics to Start Today

A retreat for Catholic men and women will be conducted by Father Raphael C. P. at St. Vincent's Cathedral, Second and Main streets, starting today and lasting through Sunday. Father Raphael is said to be one of the most eloquent Passionist Fathers in the United States and has given many retreats and missions.

Mass will be at 9 a.m. each day except Sunday when communion will be given at 8:30 a.m. Sermons will be preached daily by Father Raphael. The closing service will start at 8 p.m. Sunday.

Kinney Denies Company's Sale is Contemplated

By a "Times" Staff Correspondent
VENICE, June 3.—Thornton Kinney, head of the Abbot Kinney Company, today put the quietus on reports and rumors that the Kinney company's extensive interests here were to be sold to a group of Los Angeles capitalists.

Mr. Kinney stated there was absolutely no truth in the report, that no negotiations for the sale of the company's interests are under way. The interests of the company, he declared, are not on the block and have not been.

Actor on Death Bed Hopes for Role in Beyond

"I haven't created any sensations on the world's stage, but maybe the great Director will give me better parts to play 'Over There.'"

That is the hope whispered to friends by Dan J. Reagan, an actor of the old school, an hour before he died at the General Hospital last Tuesday. Funeral services were conducted yesterday by Rev. G. Smith, at the Le Roy Bagley Undertaking parlor in Hollywood, interment following at Grand View Cemetery. The services were under the auspices of the Actors' Relief Fund Association.

Reagan, who was 47 years of age, formerly was an acrobat and character actor with circuses and in vaudeville. He had been doing "bits" with the motion-picture companies for the last nine years. He lived at 215 Boyd street and had no relatives.

W. W. Hurlbut, Miss Akerman Will Wed Today

Friends learned yesterday that William W. Hurlbut and Miss Tutilla Akerman are to be married today at 11 a.m. at the home of Mrs. J. W. Wolfkill, 648 South Ardmore street.

Mrs. Wolfkill is an aunt of the bride-to-be. Announcement of the forthcoming marriage was made by Mr. and Mrs. Edward W. Akerman of Los Angeles. Miss Akerman resides in San Diego and is connected with the old and well-known Southern California Wolfkill family.

Mr. Hurlbut for many years has been connected with the Los Angeles Municipal Water Bureau and is office engineer under Mulholland.

The marriage ceremony is to be performed by Rev. Father John L. Clifford with Mrs. Richardson Shepard, sister of Miss Akerman, acting as matron of honor and Mr. Marlowe Merrick acting as best man. Following the marriage tomorrow, the couple are to reside at Mr. Hurlbut's home, 4180 Woodlawn avenue.

Speaker Says City Leads in Radio Activity

Los Angeles leads in the number of radio enthusiasts per capita, according to figures revealed yesterday by Chase E. Sutton, chairman of the Radio Club of this city, in an address at the Amateurs' Radio Show, in the National Automotive School Building, Figueroa and Santa Barbara streets.

According to Sutton, there are 500,000 receiving sets in this section of the State.

The first prize of \$50 in the two-tube contests at the show yesterday was captured by Art Hickman, Jr., 1661 1/2 West Twenty-fourth street, L. E. Brown, 432 East One Hundred and Eighteenth Place, took second prize. Shriners will be admitted free at the show today.

BY JUANA NEAL LEVY

One of the delightfully planned affairs of the week was the luncheon and bridge party given yesterday afternoon at the Women's Athletic Club by Miss Charlotte Darling, daughter of Mr. and Mrs. Herman S. Darling, in honor of Miss Helen Seely, whose marriage to Donald McClaffey will be one of the events of Saturday. The decorations were most charmingly carried out with a profusion of water lilies, pansies and Irish lace roses. The interesting feature of the affair was the announcement of the engagement of the hostess to Dunford M. White, son of Mr. and Mrs. William Moore White, the news being told by cards hidden in the corsage bouquets which marked the covers of the guests. Those included were Miss Seely, Miss Cecilia Cooke, Miss Emily White, Miss Barbara Wilson, Mrs. Thomas P. Cullen, Mrs. Nathaniel Gray Jeffras, Miss Nancy McClung, Mrs. Eugene Julian Cutting, Mrs. Cecil May, Miss Mary Milbank, Mrs. Nicholas Milbank, Jr., Miss Gloria Kennedy, Miss Virginia Bishop, Miss Harriet Andrews, Mrs. John Carroll Baldwin, Miss Katherine Chaffey, Miss Marjorie Hamilton and her house guest, Miss Allen McManus, of Reno, Nev.; Miss Warren Sweetland, Miss Felly Hampton, Miss Adele Smith, Miss Alice Darling, Mrs. William Moore White, Mrs. Herman S. Darling and the hostess.

Miss Darling was graduated from

Benefit Card Party Chairman

[Snayder for Illustrated News Syndicate]
Mrs. Dwight Whiting

One of the interesting events of the week will be the annual benefit card party which is to be given this afternoon at the Bell Clubhouse in South Figueroa street, by the Junior Auxiliary of the Children's Hospital. Bridge and mah jong will be the games played and Mrs. Dwight Whiting is general chairman of the afternoon.

Marlborough School and Mr. White is an alumnus of California School of Technology. The wedding will be one of the events of the fall.

Miss Alice Darling, sister of the hostess, has chosen the 5th inst. as the date for her marriage to Frederick H. Forbes.

Wedding Date Set
Miss Blossom Billings, attractive daughter of Mr. and Mrs. Samuel F. Billings, of West Twenty-third street, has chosen September 18 as the date for her wedding with Hudson C. Drake, the ceremony to take place in St. Matthias Church, West Washington Boulevard, Rev. Irving Spencer reading the Episcopal marriage service. The dainty bride chose this date as it is the birthday anniversary of her maternal grandmother, Mrs. Amanda Blossom, for whom she is named.

Bridge and Luncheon
Miss Janet Wigmore, attractive daughter of Mr. and Mrs. Cyril S. Wigmore, of Gramercy Place, is entertaining this afternoon with a luncheon and bridge at the Mary Louise in honor of Miss Katherine Spangler, who, with her mother, is planning to leave on the 5th inst. for an extended trip abroad. The decorations will carry out the going-away motif and the guests will include Miss Spangler, Miss Eleanor Bailey, Miss Katherine Kirk, Miss Josephine Betts, Miss Helen Ferguson, Miss Marjorie Marshall, Miss Virginia Marshall, Miss Emily Cook, Miss Betty Bishop, Mrs. Robinson Carr Locke, Mrs. R. J. Dike and the hostess.

Afternoon Tea
One of the delightful affairs of the month was the tea dance at the Ambassador Saturday afternoon, when Miss Aurora McCaleb entertained a group of friends, including Miss Lillian Bennett, Miss Elizabeth Nicholson, Miss Bayan Cahill, Miss Katherine Boyle,

THE NEW

IN STORES AND HOMES
NOVELTIES, IDEAS AND PRACTICAL SUGGESTIONS

By Olive Gray

Shrine Colors

Had you forgotten how well these major colors combine? New harmonious, although seemingly clashful, are they? Seeing green-red, golden may become a habit, so that for months to come we shall be wishing to wear these primal shades. They raise the spirits, proving the assertion that color does influence one's mood. Gayety exudes from the costumes of the Mobles; downtown sets one's thoughts afloat with the joy of living.

The Jabot Flounce

The Parisians call it the jabot flounce—we are prone to term it merely circular. I think the former more modern. And it is so. The swish and swing of the jabot flounce carries the day—or carries the gown to the day of style recognition.

At Its Peak

The sombrero of Spanish-Mexican fashion is coming into its own—it has, in fact, reached the peak of favor. For outing, for motor, for beaching—for men and for women, for children and half-grown, this once so-popular hat is interesting as well as comfortable. Some of those shown in the great window displays of the express these important places, are of the finest. Created with the work of southern peoples, these hats are woven of the finest straw—similar to that chosen for the bottom of the boat. In addition to being useful as protection from the sun, they form excellent souvenirs, to hang upon the wall at home, reminding one always of the glad experiences in the great outdoors.

Autumnal Whispers

It is whispered that Paris will, for autumn wear, attempt to revive the more formal aspects in lace, velvet, satin, heavy silks and textures resembling these. It is said that the French will, in fact, reach a new epoch in their costume, the French always have liked elegance both in fabric and in line—in fact, sports wear, plain and broad, and, on the contrary, ever they have striven to lead the mode away from the less intricate habiliments. It is America, with her love of freedom, which has inaugurated and has maintained the sports clothes that, once fastidious, are now so popular as to be difficult to select.

Hoisted in Front

The new note in coats—that of bringing all the fullness toward the front, is accomplished in strange and unusual ways, sometimes. One method, noted in the display at a local exclusive shop, was that of placing a piece of half-inch wide side seam to side seam, the fullness falling naturally toward the front of the wrap, where it was held in place by a row of buttons. In this instance, the flounce, when upheld, displayed a lining in contrasting color to the garment and the seam was lined in the same shade.

Velvet Replacement

It is predicted and, in fact, already is coming to pass, that trimming of velvet robes, sometimes, the bands of fur shown upon wraps of silk or satin. The soft and pliant texture of recent velvet weaves, renders this material most appropriate as trimming to the softer silks and furnishing a vivid contrast in surface, is quite a sufficient ornamentation.

Moire for Men

The effort to revive the vogue of moire silk for men's cravats may, as some believe, forecast a return to modes of other days extending to the lace shirt front and the dancing frock coat. The moire, a decoration that the black silk stock, of former days, is about to be adopted by extremely modern men for the actual maintenance of this belief. One can scarcely picture our western men thus attired, though.

Aunt Jane's Way

When she cleans house—and she still does—she places a little oil on the shelves of bookcases and closets. This prevents moths and does away with that musty odor which sometimes invades the spaces behind closed doors.

WITH MADAME LA MODE

Shades of red are particularly smart. Orchid and fuchsia shades are excellent. As for skirts, they continue to be a leading shade. Silk coats have flaring lines and full fur borders. Some of the most popular taffetas are again in vogue. White pique is favored for girdles and vest effects. The artificial gardenia comes in a variety of gay hues. One some of the new coats we note the gathered shawl, a Chinese lacquer table which will be sold, the proceeds adding to the fund. The Community Chest provides only for the actual maintenance of this worthy institution, save and for the repairs to house and improvements, enlargements, etc., having to come from outside sources.

Shoes lace sometimes slash the long leaves of chiffon frocks. Scalloped edges are the only trimming on a tunic frock of linen.

The Woman and Her Job

THE THINGS THAT SELL

Dear Mrs. Watrous:

After a long illness I expect to be home-bound for some time, and have been casting about in my mind for some useful occupation during the period. When my boy was a little chap I used to make picture books of colored book muslin with pinked edges. On these sheets were pasted interesting pictures that appealed to children. The little folks loved them, and we used to make them for the orphanage in this day of extravagance. I wonder if they would appeal. How could the material be modernized? What about making it some little book of covers for the children? Or should they be complete menus? About what size and what kind of covers would you suggest?

I also make terrapin pine baskets, hand-colored Christmas cards and calendars, besides fancy work. I'd like to get enough together for a little sale next Christmas.

Perhaps some of our friends of the column will express an opinion about the little books for children. It isn't that the children wouldn't like them, but that the children wouldn't buy such things might hesitate to buy them. You know we live in a period of starvation. Fear of being "cheap" is Polly's mother. There are such charming pictures published in the magazines it would seem as though they might be put to some good use.

When I read about your recipes the thought came to me that perhaps the card-board boxes holding blank cards for recipes would be better than the book idea. The cards are divided into "bread," "cakes," "pies," "meats," etc. My friends prefer the boxes to cookbooks.

Your unusual dishes should be placed on the cards, and at the bottom you could say: "This is a tasty addition to..." and name the kind of salad, meat or vegetable you think accompanies it to advantage.

If the boxes were decorated artistically with a little color, they should be attractive. But be sure the price is not too high. One of the treasures of old women.

ANSWERS TO CORRESPONDENTS

GRAV HAIR

"Dear Doctor: I am 35 years of age. Ten months ago I weighed 230, but I am 165 now, thanks to you. Not so worse a reduction, is it?"

"My trouble is: I have had considerable sickness and several deaths in the family and consequently I have many gray hairs. At my age I shouldn't have them and would like to know what to do to prevent more. I pull them out, but they come back in again. This worries me, for gray hair means age—Miss M."

Six-five pounds reduction? I'll say it's no wonder! Are you getting your needs for protein, vitamins and mineral elements in your reducing diet? You should. Don't worry about the gray hair. It is not necessarily a sign of age. Many young people have gray hair and usually it is very becoming. The time of graying hair seems to be more or less an inherited tendency.

Of course, if the daily care of the scalp is neglected that may cause scalp trouble and graying hair. There should be a thorough brushing of the scalp (not the hair) for four or five minutes a day. Best do this with a brush in each hand. (That gives you chest exercise, too.) Keep the brushes on the scalp and scrub vigorously. Afterward you can brush the hair and shake out the dandruff. There is a normal accumulation of dandruff each day and this brushing and shaking rid you of it.

Running the hands through the hair and the closing of the fist will give a pull on the hair which will strengthen the roots. Massage of the scalp is good, also.

We have an article on the care of the scalp which goes into the subject of gray hair, baldness, dandruff, etc. (Incidentally, a self-addressed stamped envelope with your return.)

CHRONIC DIARRHEA

Mr. P.—Chronic diarrhea indicates an inflammatory condition of the intestines, with a loss of tone. Sometimes this is due to infections like tuberculosis, or sometimes it may be nonspecific; that is, it is not due to any particular germ. Of course, it is necessary to find the cause. You should have a thorough examination, with an X-ray of the intestines and a microscopic examination of the feces.

In the newer treatment of colitis fresh vegetables and fruits, very thoroughly masticated or pureed, are allowed, for it has been found that lack of vitamins is one of the conditions. In the older diets, when no vegetables or fruits were allowed, the trouble was kept up from the diet. Good results are being obtained with an exclusive diet of the artificially soured milk, known as acidophilus milk. This milk contains the bacteria which flora (germs). Small amounts of lemon or orange juice can be taken with these milk meals.

One is not going to get at the cause by continuously taking drugs.

After the diarrhea clears up then gradually begin to include all of the foods necessary for the normal diet—whole-wheat bread and cereals, liberal amounts of fresh fruits and vegetables, two glasses of milk at least, a moderate amount of meat, or if no meat is taken, its equivalent in nuts, cheese or eggs.

Exclusive Hand Made

La Mode Shoe

722 South Flower Street

Metropolitan 5415

Los Angeles

Exquisite for the June Bride! A dainty opera pump in rich white satin, delicately proportioned and lovely of design. Quality and distinction are reflected in smart rounded toes, extremely narrow heels, and a modified French vamp.

PLAYDOM
"BEGGAR" A RARITY
King Rex Back on Silver Sheet
Rex, "King of Wild Horses,"
Whose latest starring vehicle, "Black Cyclone," will have its premier local showing at the Rialto Theater Saturday.

'No, No, Nanette'
to Leave Mason
Saturday, July 4
Every Los Angeles playgoer who has seen the sensational Maclean and Smith musical-comedy hit, "No, No, Nanette," as the Masons will learn with regret that this tuneful mis is about to say "Good-bye." The final four weeks of the remarkable run of this show have been announced and the closing performance will positively take place on Saturday evening, July 4. Those who have thus far missed "No, No, Nanette" will have to hurry if they want to see this hit, for it goes from here to San Francisco, then is off for a year's tour of the West.

Maude Fulton's
Play Greeted by
Capacity Houses
Capacity houses this week are greeting Maude Fulton in her new play, "The Big Top," which reopened the Majestic Theater under the new management of H. P. Caulfield and associates.

THEATRICAL SPEAKING
By Herbert Moulton
Now that the Pasadena Community Players have launched their splendid new playhouse, they're going right ahead with elaborate plans for a series of new productions. Earl Carroll's Chinese fantasia, "The Lady of the Lamp," will have its western premiere tonight, to run until the 13th inst. "To the Ladies," the old Kaufman and Connelly laughing success, is scheduled for the 18th inst. while Benj. "Peer Gynt," which will be the organization's outstanding offering of the summer, will be given early in July.

THEATRICAL SPEAKING
By Herbert Moulton
The three other one-act offerings the Garret is putting on this week range from a bedroom farce to one of Eugene O'Neill's dramatic gems. The latter is "The Web," which the Garrets staged several months ago, and which is being revived with Floyd Storm, Cecil Storm, and Constance Everett in the cast. "Cross Words," the farcical boulevard offering, will disclose the talents of Katharine Hatch and Cecil Storm.

THEATRICAL SPEAKING
By Herbert Moulton
The new program will include a number of star series, including stories from such nationally famous authors as Gene Stratton-Porter and Laura Jean Libbey, and no less than two productions by Emory Johnson, maker of such memorable attractions as "The Third Alarm," which to date has been shown in more than 9000 theaters.

GRAUMAN'S EGYPTIAN
"The Iron Horse"
No Shriners should return home without seeing the world's most picturesque playhouse, John Ford's mighty, dramatic and big Grauman's Egyptian, that defies description—150 people and 2 big Indian tribes.

THEATRICAL SPEAKING
By Herbert Moulton
The new program will include a number of star series, including stories from such nationally famous authors as Gene Stratton-Porter and Laura Jean Libbey, and no less than two productions by Emory Johnson, maker of such memorable attractions as "The Third Alarm," which to date has been shown in more than 9000 theaters.

FLASHES
WON'T LEAVE US
HAROLD LLOYD TO MAKE NEW PICTURE HERE
BY GRACE KINGSLLEY
Harold Lloyd has decided to stick along and give California another chance—that Hollywood is after all a good enough place in which to make a picture. So he announced yesterday that he had relinquished the idea of making his next comedy in New York, as he had intended doing. Later on of course he may decide that it will be a good thing to film one of his comedies with an eastern locale, but in the meantime Hollywood has all his votes.

Tenor Comes to
Head Loew Bill
for Next Week
Josef Rosenblatt, noted tenor-cantor, arrived in Los Angeles yesterday from New York. He will sing at the Loew's Theater all next week as a special attraction. Rosenblatt was met at the station by a delegation of local rabbis and friends, who escorted him to his hotel.

VALLI WILL PLAY WITH
MEIGHAN IN NEW YORK
Virginia Valli has been cast to play the leading role opposite Thomas Meighan in his next starring production for Paramount, "The Man Who Found Himself," which is being run in New York.

ACCIDENTS ARE

Hit-and-Run Driver's Victim Thought Dying

Three persons are dead and another is believed dying following traffic crashes last night, two of the accidents being attributed partly to wet pavements. Several others were injured.

Those killed were Fred Gaines, 437 East Shaver street, Willowbrook; E. H. Young, whose address was not known; and a woman, Goodwin of 1514 West Forty-second and Place L. A. Jimm, whose address was not known. Gaines was reported to be dying when he was killed instantly when his car was demolished by a street car crossing in Willowbrook. Young's death occurred when his machine skidded on the wet pavement on the boulevard at Redondo and San Pedro. He was pinned beneath the wreckage and was dead when aid reached him.

THREE HURT

Three other persons, O. E. Carter, Mrs. J. E. Carter and Mr. and Mrs. James J. Townsend of 2347 Ocean View avenue, riding in Young's car, were injured. They were taken to Redondo Hospital. Young's body was removed to the Catholic mortuary at Redondo.

In San Pedro, a crossing accident according to Metroman Woodburn, Gaines had stopped his car on the boulevard. When the train passed and drove directly in the path of the outbound train on another track, apparently without warning.

The train was bound for Wilmington with a load of passengers who were to sail on the steamship *Albatross*. It was traveling at a rate of about twenty-five miles an hour, the metorman said. There is a crossing signal at the junction, but the metorman said he gave the customary warning whistle. The train was in charge of Conductor A. M. Brook.

The body was taken to the mortuary of Neal Company in Willowbrook.

Jim Goodwin was run down and killed last night at Vernon and Western avenues by an automobile driven by a woman. The accident was reported by Samuel J. Dorak, 283 Malabar street. She died almost immediately after being hit.

The body was taken to the mortuary of Dorak for investigation. The accident is believed to have been caused by the slipper condition of the pavement, which probably prevented prompt application of the brakes. The body of the victim, Goodwin, is being held by the Bresce Brothers.

FOUND IN STREET

Jimm, victim of a "hit-and-run" motorist, was taken to the Redondo Hospital last night, suffering from fracture of both legs and arms and internal injuries. He was unconscious and in a dying condition when he was found on the street at Twenty-eighth and Pacific avenue, San Pedro. Police are trying to trace the motorist and investigate some reports that he was traveling at an excessive rate of speed.

Ancient Indians' Skeletons Found in Arizona Ruins

(BY A. F. NIGHT WEBB)

MIAMI (Ariz.) June 3.—The skeletons of twenty-nine prehistoric Indians have just been unearthed near Iron's ranch on the Superior Highway by Ernest H. Schron, a student of the Museum of Natural History of New York, who is employed by Mrs. J. H. Boyce Thompson, now of Superior, Ariz., to investigate some of the Arizona prehistoric ruins. The skeletons indicate some of the Indians were more than six feet tall. The ruins, at Redondo, also have been found in fifty of the 120 rooms unearthed.

STAFF OF RECORDER WINS PAGANT CUP

A silver loving cup was presented yesterday to the workers in the County Recorder's office for first prize for the pageant poem straying early life in Los Angeles belonging to Mrs. W. H. Mooney of Beach, May 22, last. The presentation was made by Postmaster Jack Funk, who headed a committee of the Chamber of Commerce. Mrs. Maude D. Womersley received the cup for her fellow employees.

VISITOR LOSES PURSE WITH \$1000 AND TICKETS

By "Time" Staff Correspondent

LONG BEACH, June 3.—Fellow visitors here were asked to help find a purse containing \$1000 in cash and railroad tickets to Kansas City belonging to a woman who said that city, a Shrine visitor to Southern California, who is registered at the Hotel Triton, Los Angeles. The woman, Mrs. W. H. Mooney, was visiting friends at 1030 East Second street, here, and told local police.

OPEN-SHOP MAN FIRED AT MOLDERS' WAR

(EXCLUSIVE DISPATCH)

SAN FRANCISCO, June 3.—Emil Hall, 54 years of age, a long open shop iron molder, who was severely beaten by unknown men in front of his home at 908 Park street, was fired upon by an unknown man early this morning when he returned to the home. A blizzard of shots took place, causing a stampede among people on the street. No one was hit.
